Create your look

Vertical partitions in LAMINATE Nordic Oak Woodmatt.

COMMERCIAL

polytec's Commercial range comes in a variety of colours, thicknesses and sheet sizes specifically designed for commercial application. Our range of colours are available in Melamine, Laminate and Compact laminate making it easy for you to choose the design features you are looking for. Choosing **polytec**'s Commercial colours and materials for today's working environments will give your design concept a fresh and unique look.

The **polytec** Commercial range will inspire unlimited design possibilities for any commercial environment.

In addition to the Commercial range, is the introduction of the new Woodmatt finish in versatile, larger decorative boards, all with matching laminate, and a selection of Compact laminates. The Woodmatt finish from **polytec** offers a subtle woodgrain embossing with an overall matt surface, combining the best of natural timber with technology advancements to match perceptions of authentic timber veneer – in look, feel and warmth.

Inherent with our typical durable properties and the **polytec** value price point, the unique Woodmatt colours and finish, help you to create a natural looking and feeling environment, now available in 13mm Compact laminate for the most hard working environments.

ENVIRONMENT & SUSTAINABILITY

polytec is committed to an eco-friendly and sustainable environment. It is an intrinsic part of the way we do business daily. Our decisions are made so that they have minimum negative impact on the environment.

Our product is manufactured from managed and renewable plantation pine, and on request can be purchased as Responsible Wood Chain of Custody certified. All polytec board products are manufactured from E0 or E1 MDF, with particleboard now made from a percentage of recycled wood material.

We manage waste responsibly through numerous recycling programs including aluminium and metals, used oils and timber waste is recycled back into packaging and energy. We subscribe to local government environmental initiatives and voluntary audits as well as our own internal Energy and Carbon Management Policy (ECM), which aligns with the Australian Government's Energy Efficiency Opportunities (EEO) program.

Our national portfolio of facilities boasts a total of almost 54,000 solar panels with 17.66 million solar kWh generated, the equivalent of 7,377 trees planted saving close to 12,000 tonne of CO2 emissions. The Oberon facility is now Australia's largest rooftop solar system, with 27,000 panels spread across 8 hectares of rooftop. polytec continues to improve on sustainability measures in order to build a circular economy and better future for all.

polytec doors and benchtops are certified Australian Made & Owned.

CARE & MAINTENANCE

Your polytec doors and panels are made from a Moisture Resistant Medium Density Fibreboard (MR MDF), but as with many wood based panels, they are not waterproof. Care should be taken to wipe up spills immediately, ensuring the doors are not exposed to high or continuous levels of moisture, steam and humidity.

The surface of polytec's Compact laminate is made from a stain-resistant melamine based resin. The toughness and high impermeability of this surface means that polytec's Compact laminate should require no more than wiping with a soft cloth, dampened with plain water or a household detergent mix to remove all common household spills.

For more stubborn stains use a mild household cleaning spray. Always ensure you refer to the recommendations provided by the manufacturer of the cleaning product before use.

By following these simple steps you should retain a beautiful surface for many years.

Visit www.polytec.com.au for specific care and cleaning information. Darker colours will show superficial wear and tear more readily than lighter coloured surfaces and require more care and maintenance.

The colours and details shown in this brochure are to the highest standards in printing. However, they should only be used as an indication of actual product colour. To order your free colour sample visit www.polytec.com.au.

polytec swatches and samples represent a small area of the overall colour structure, to view a large colour sample or a full sheet design, visit www.polytec.com.au.

The use of our current samples gives the colour and finish that a customer would expect to receive. Samples are provided for colour and finish selection and polytec recommend testing a sample for fingerprint resistance and ease of cleaning. polytec does not guarantee exact colour matches across product ranges due to colour variation in each product group.
