xpress plus

POST SYSTEM OVERVIEW

Australia's leading
slat screen system

Save time
& money

Xpress Plus post system is Australia's premier horizontal slat screening system for fencing. Featuring 50x50mm square posts, patented internal legs firmly hold slats in position without need of screwing, riveting or welding each slat. Slats are recessed into the post for a neat slimline finish. The system enables the fastest and easiest onsite assembly of slat fencing with pre-powder coated stock.

Horizontal slat screening post system

ASSEMBLE ON-SITE —

Simply install posts and insert slats working from bottom to top. Slats are separated by snap in spacers available in 5mm, 9mm or 20mm heights. 100mm long spacers also available for cutting to specific gap if needed.

Starting height of slats is set by using snap-in height adjustable spacer.

EASY QUOTING & PLANNING —

Quickly and accurately plan and quote a fence using our free and easy to use calculator in Excel format. Simply put in your fence shape, height and span. Instantly receive post centres and a bill of materials for your fence.

Fast, easy and accurate!

COMPLETE SYSTEM —

50x50mm aluminium posts available in 1 way, 2 way and 90 degree configurations. Slimline side frames available separately as well as matching pedestrian and sliding gates. All systems feature patented non-weld assembly.

SAVE TIME & MONEY —

Enjoy the fastest and easiest slat fence system available utilising pre-powder coated stock. Install posts with slats in the same day. The patented system means only 1 person is required for install.

No need for screwing, welding or riveting each slat.

STYLISH DESIGN —

The patented system enables slats to be inserted directly into the 50x50mm post for a slimline finish. No need for U channel or F section.

EXTRUDED & POWDER COATED IN AUSTRALIA HIGHEST QUALITY FINISHES —

Our range of genuine Interpon D1000 series powder coat finishes has been carefully selected to include the most sought after colours on offer.

All components are suitably pre-treated prior to powder coating and are applied by fully accredited coating facilities.

POST SYSTEM OVERVIEW

Stylish design with fast and easy installation – no welding or riveting required

BUILD ON-SITE WITH FAST & EASY INSTALL

Install pre-powder coated 50x50mm posts (core drill or base plated)
and insert slats working from bottom to top.

BENEFITS & FEATURES –

- Assemble on-site with pre-powder coated posts and slats
- 1 way, 2 way and 90° post configurations available
- Patented friction fitting of slats into posts – no need to weld, screw or rivet slats
- Variable slat spacing – 5mm, 9mm and 20mm spacers available or customise slat spacing by cutting down 100mm spacer blocks. Nil spacing can be achieved by simply stacking slats with no gap
- The starting height of first slat is set by simply snapping in infill

- 1 Press-in aluminium top plate
- 2 Slat locking clip
- 3 65mm x 16.5mm slats (90mm x 16.5mm slats also available)
- 4 Snap-in spacers
- 5 Patented 50x50mm post
- 6 100mm high spacer block (cut down to adjust first slat starting height)

**AUSTRALIAN MADE
& POWDER COATED
ALUMINIUM**

SLATS RECESS INTO PATENTED FRICTION FIT POSTS FOR A NEAT FINISH

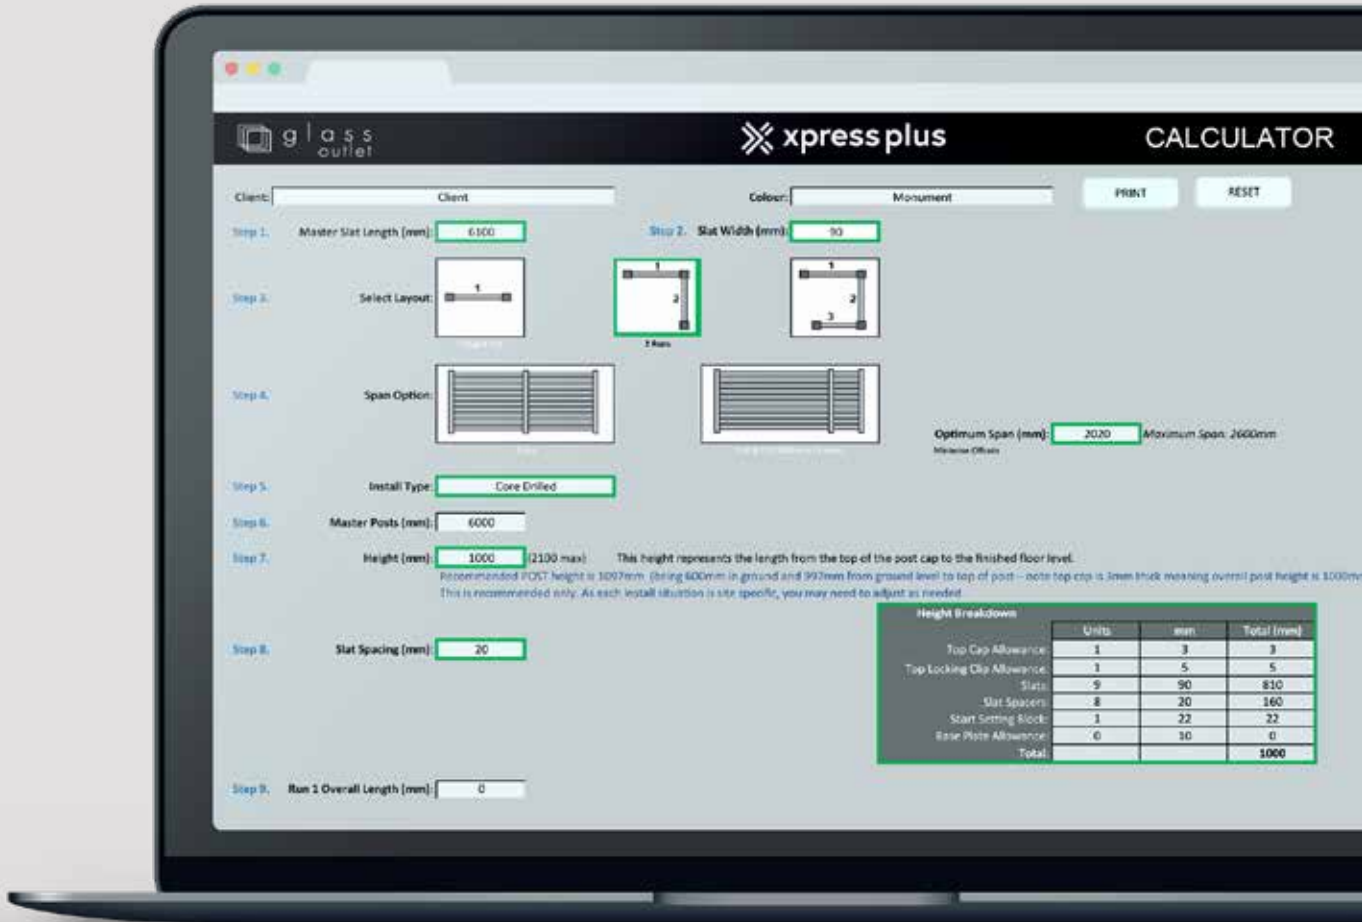

Fence planner & calculator

TAKE THE HASSLE OUT OF CALCULATING MATERIALS AND POST SPACINGS

Simply input fence layout, height and gap spacing into our FREE fence planner and calculator to instantly calculate materials required and post to post centres.

Easy to use Microsoft Excel format.

FREE TO USE

The Xpress Plus calculator is free with an easy to use Microsoft Excel file supplied directly to you

SPEEDY QUOTING

Quote jobs quickly and accurately, increasing your chances of converting to a sale – an immediate sales tool

ALL THE INFO

Post centres, post heights and slat cutting widths instantly advised – all info needed to complete a job is provided

SAVE TIME

Remove the complexity of calculating materials for your job. Simply enter the desired fence span and height

NO GUESSWORK

The Xpress Plus calculator instantly provides a complete bill of materials based on your fence specifications

BOTH SYSTEMS

The Xpress Plus calculator can be used for our patented post system as well as our side frame system (if installing between pillars)

2 PART CENTRE SUPPORT RAIL

Centre support rail

5800MM LONG

Order Code: XP-5800-CSR

OPTIONAL EXTRA

Commonly used for screens 2000mm or wider to provide strength & rigidity to panel

Snap-on cover hides fixings – provides slimline sturdy support rail with no visible fixings

TECH SPECS

- PP 126 / AP 188
- Alloy 6063-T5
- 5800mm long
- Screw fix centre support rail to each slat
- Includes 2x screw flutes for press-in top cap
- Top cap sold separately
- lxx = 1.73 x 10E3 mmE4
- lyy = 26.34 x 10E3 mmE4

Finishes

MATES WITH XP-5800-CSR

Centre support rail cap

40mm x 13mm

3MM THICK

Order Code: XP-CSRC

- Nylon cap available in 5 colours
- Simply press into screw flutes in centre support rail
- Easy and fast fitting of cap

Finishes

MATES WITH XP-5800-CSR

Centre support rail top/bottom plate

Order Code: XP-BTP

- Aluminium with countersunk hole machining
- 2x CSK screws included for fixing to CSR
- Optional extra to install with centre support rail
- Use to brace top and/or bottom of centre support rail to structure above or below if desired
- Bracing centre support rail provides extra rigidity to panels – recommended for wide screens
- Available in same colours as centre support rail

Screw top/bottom plate to centre support rail

Screw through central hole to substrate at top or bottom

SPACERS & EXTRAS

50 PACK Spacer blocks

5MM, 9MM OR
20MM SPACERS

Order Code: **XPL-SB-50PK-05MM**
XPL-SB-50PK-09MM
XPL-SB-50PK-20MM

- UV stabilised ASA thermoplastic - black
- Snaps into Xpress Plus post
- Provides 5mm, 9mm or 21mm space between slats
- Fast and easy install with post, slats and spacers

5 PACK Block

100MM LONG

Order Code: **XPL-BLOCK-5PK**

- UV stabilised ABS - black
- Snaps into Xpress Plus post pocket
- Use to set starting height of first slat in post. Simply cut to starting height & snap into position at bottom of post
- Can also be cut to size to customise slat spacing

10 PACK Slat locking clip

Order Code: **XPL-SLATCLIP-10PK**

- Aluminium locking clip with SS304 self tapping screws
- Affix to both sides of top slat only between each fence post opening
- Acts as mechanical fix to prevent chance of posts splaying open
- Allow 5mm gap between top of final slat and top of post
- Locking clip hidden under post top plate

Self drilling wafer screws

10Gx16mm – BAG OF 100
Black / Monument / Woodland Grey / Silver / Surfmist / White Basalt / Dune / Mill finish

Order Code: **XP-SCREWS**

- Bags of 100 - 10G x 16mm self drilling wafer head zinc plated
- Colour matched powder coated heads
- Not required for post/slat assembly. Screws useful if needing to screw fix centre support rail to slat, U channel, angle or similar for an installation

Touch up paint

150g SPRAY CAN
Black / Monument / Woodland Grey / Silver / Surfmist / White Basalt / Dune

Order Code: **PAINT-B/MN/G/S/SM/W/BS/D**

- Colour matched touch up paint
- Simply spray on for minor touch ups

Images & drawings are not to scale

END PLATES & BASE PLATES

50x50mm post flat top plate
POWDER COATED ALUMINIUM
**Black / Monument / Woodland Grey
Silver / Surfmist / White / Basalt
Dune / Mill finish**
Order Code: XP-TP

- Alloy ADC12 aluminium plate - 3mm thick
- Press into post screw flutes for secure fixing
- Suits fitting to all 50x50mm Xpress Plus posts

50x50mm post dress ring
POWDER COATED ALUMINIUM
**Black / Monument / Woodland Grey
Silver / Surfmist / White / Basalt
Dune / Mill finish**
Order Code: XP-DR

- Suits 50x50mm core drill posts
- 100mm x 100mm outer - 52mm x 52mm inner

50x50mm post base plate set

1x base plate & 4x screws
POWDER COATED ALUMINIUM
**Black / Monument / Woodland Grey / Silver
Surfmist / White / Basalt / Dune / Mill finish**
Order Code: XP-BP-SET

- 100mm x 100mm base plate (10mm thick) with 4x fixing holes
- Simply screw base plate into core drill post screw flutes
- 4x 12G x 50mm long CSK screws (SS304) included in set

Discreet screws fix two parts of cover together

Two part domical cover
POWDER COATED ALUMINIUM
**Black / Monument / Woodland Grey
Silver / Surfmist / White / Basalt
Dune / Mill finish**
Order Code: XP-DC-2P

- Suits 50x50mm post with screw fixed base plate
- 106x106mm outer - 52x52mm inner - Alloy ADC12
- 30mm high
- Cover can be fitted to posts after fence is installed

Finishes

Timber fixing kit
4 PACK - SS316
Order Code: S-110LAG-4PK

- M10 x 110mm timber lag screws x4 with nuts and washers
- Suits fixing holes in both the 50x50mm and 65x65mm base plate sets

Concrete fixing kit
4 PACK - SS316
Order Code: S-120ROD-4PK

- M10 x 120mm concrete threaded rods x4 with nuts and washers
- Suits fixing holes in both the 50x50mm and 65x65mm base plate sets

POSTS & ACCESSORIES

65x65mm heavy duty post

2400MM or 6000MM LONG

Order Code: XP-2400/6000-65HD

Finishes

TECH SPECS

- PP 255 / AP 255
- 65x65mm larger profile, heavy duty post
- Alloy 6063 - T6
- 3mm wall thickness
- Screw flutes to screw on base plate if required
- Aluminium powder coated press-in top plate included with 2400mm posts
- lxx = 464.62 x 10E3 mmE4
- lyy = 464.62 x 10E3 mmE4

4x screw flutes in post allow tight fit of press in flat aluminium top plate.

Optional base plate can be attached using screw flutes for base plated post installations.

65x65mm post flat top plate

POWDER COATED ALUMINIUM

Black / Monument / Woodland Grey / Silver / Surfmist
White / Basalt / Dune / Mill finish

Order Code: XP-65TP

- Alloy ADC12 aluminium plate - 3mm thick
- Press into post screw flutes for secure fixing
- 2400mm posts come with free top plate included - only purchase if extra top plates are required
- Top plates required for 6000mm posts - sold separately

Discreet screws fix two parts of cover together

65x65mm two part domical cover

POWDER COATED ALUMINIUM

Black / Monument / Woodland Grey
Silver / Surfmist / White / Basalt
Dune / Mill finish

Order Code: XP-65DC-2P

- Suits 65x65mm post with screw fixed base plate
- 122x106mm outer - 67x67mm inner - Alloy ADC12
- 30mm high
- Cover can be fitted to posts after fence is installed

65x65mm post dress ring

POWDER COATED ALUMINIUM

Black / Monument / Woodland Grey / Silver / Surfmist
White / Basalt / Dune / Mill finish

Order Code: XP-65DR

- Suits 65x65mm heavy duty post
- 115mm x 115mm outer - 67mm x 67mm inner

65x65mm post base plate set

1x base plate & 4x screws

POWDER COATED ALUMINIUM

Black / Monument / Woodland Grey / Silver
Surfmist / White / Basalt / Dune / Mill finish

Order Code: XP-65BP-SET

- 115mm x 100mm base plate (10mm thick) with 4x fixing holes
- Simply screw base plate into core drill post screw flutes
- 4x 12G x 50mm long CSK screws (SS304) included in set

Finishes

POST INSTALL OVERVIEW

1 Determine fence layout

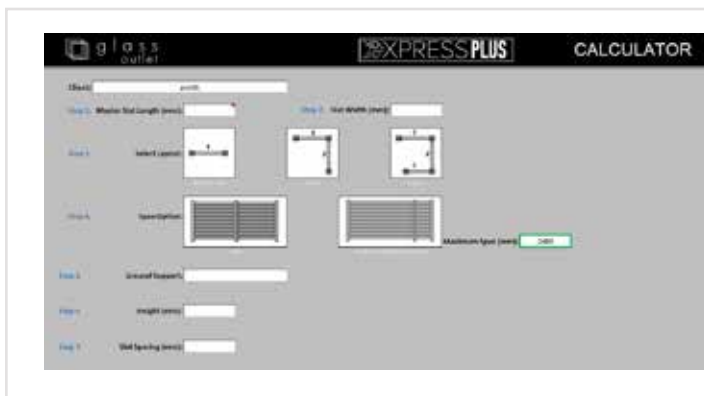

2 Determine how posts are to be installed:

1. Core drill into concrete (recommended min. $\varnothing 76\text{mm}$ core hole at approx. 100mm deep)

2. Base plated to surface (base plates can be screw fixed to posts)

3. Set into ground with concrete footings (recommended footings min 600mm deep x 300mm wide with post embedded to 600mm minimum and then concrete filled)

3 Determine post positions

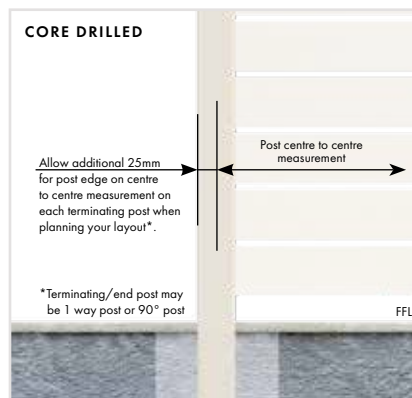

For simplicity, calculate post positions from centre of post to centre of post.

Refer Xpress Plus calculator which provides post centres depending on layout selected.

*Recommended that post centres do not exceed 2500mm. In areas of high wind, consider restricting span widths.

Install tip: For end or corner posts of a run, there will be 25mm extra to take into account for 'overhang' of 50mm post.

For base plated installs, end or corner posts have an extra 50mm 'overhang' with the post and base plate.

POST INSTALL OVERVIEW

4 Determine overall post height required

The Xpress Plus excel calculator calculates requirements from ground level upwards.

For overall post heights required, add the extra length below the surface for core drill and concrete footings.

For base plated installations, deduct 10mm from screen height (as base plate is 10mm thick)

Install posts.

TIP - Use spirit level to ensure posts are vertically level. Ensure top of posts level and in alignment.

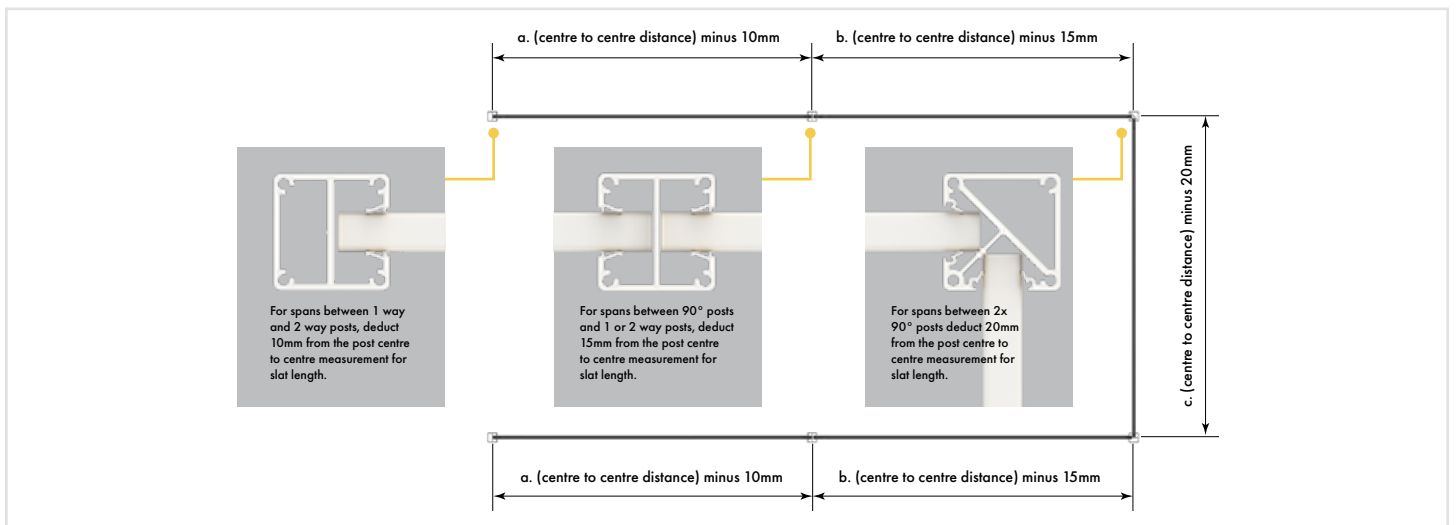

5 Xpress Plus calculator provides calculation of height to cut initial height setting blocks.

NOTE: For uneven ground/deck, cut one setting block only and place at the highest point of the finished floor line. Then, run a level string line to determine heights of remaining setting blocks before cutting to size.

TIP - it is recommended that the bottom gap is no higher than 50mm. Consider lowering or raising overall post height to achieve a starting gap less than 50mm.

Cut setting blocks to suit stringline level and snap into posts.

Use stringline to set first slat height.

6 Cut slats to appropriate length for each post opening - Refer Xpress Plus excel calculator for guide on slat lengths required.

Deduction summary:

a. For spans between any 1 way post and 2 way post combination, slats are cut **10mm less** than the centre to centre of posts

b. For spans leading into a 90 degree post, slats are cut **15mm less** than the centre to centre of posts

c. For spans between two 90 degree posts, slats are cut **20mm less** than the centre to centre of posts

POST INSTALL OVERVIEW

7 Install first slat in each span. Using spirit level, ensure slats are level.

8 Snap in spacer block above first slat into either side of pocket of post. Repeat for all slats.

9 Top slat finishes 5mm below the top of the post. Screw slat locking clip into top slat.

POST INSTALL OVERVIEW

10 Install 3mm thick top plate. Use rubber mallet to tap into position.

OPTIONAL
EXTRA:

Centre support rail

See page 8 for full
specifications

11 Install note: for spans over 2000mm (or in high wind areas under 2000mm wide) it is recommended to have a centre support rail
Place centre support rail against slats and screw off at each slat using XP-SCREWS. Snap on fixing cover to hide screws.

xpress plus

SIDE FRAME SYSTEM OVERVIEW

Australia's leading
slat screen system

Save time
& money

Xpress Plus side frames feature patented internal legs designed to hold slats firmly in place. This innovative design feature allows assembly of pre-powder coated aluminium and does not require welding, screwing or riveting off each slat.

Ideal for installations between pillars and existing posts!

Horizontal slat screening system

TWO ASSEMBLY METHODS —

1. Build as you go: Affix side frames to post or wall and install slats working from the bottom to the top. No U channel or F section required.

2. Pre-assemble: Assemble panel in workshop or onsite. Install assembled panel using U channel or F section.

HIGHEST QUALITY WITH 10 YEAR WARRANTY —

Industry leading trade quality system. Extruded and powder coated in Australia. Genuine Interpon powder with 10 year Warranty. Large range of pre-powder coated stock available.

QUICK & EASY INSTALLATION —

Enjoy the benefits of our patented system allowing for assembly without need of welding, screwing or riveting off each slat.

COMPLETE SYSTEM —

Xpress Plus is a complete system consisting of slats, side frames, caps, posts, pedestrian gates and sliding gates. Highest quality product at the best trade prices.

VARIABLE SLAT SPACING —

Achieve any slat spacing desired. Slats are separated with slimline spacers that snap into the side frame. Stocked spacers are 5mm, 9mm and 20mm. 100mm lengths also available for cutting to required gap.

A premium aluminium insert with 9mm or 20mm spacing is also available to suit 65mm x 16.5mm slat.

THREE SLAT OPTIONS —

Choose from our range of 65mm x 16.5mm slats with or without centre web or 90mm x 16.5mm slats in stock to suit side frames.

EXTRUDED & POWDER COATED IN AUSTRALIA HIGHEST QUALITY FINISHES —

Our range of genuine Interpon D1000 series powder coat finishes has been carefully selected to include the most sought after colours on offer.

All components are suitably pre-treated prior to powder coating and are applied by fully accredited coating facilities.

SIDE FRAME INSTALLATION OPTIONS

Enjoy the flexibility of installing Xpress Plus patented side frames via two convenient methods

METHOD 1

BUILD AS YOU GO —

Pre-powder coated Xpress Plus side frames are affixed to a wall or pillar. Slats are then inserted from the bottom working upwards to completion. Slats are separated by snap in spacers. No U channel or F section required.

- 1 Side frame end plates
- 2 Patented Xpress Plus side frame
- 3 Snap-in spacers
- 4 65mm x 16.5mm slats (90mm x 16.5mm slats also available)
- 5 Centre support rail (Recommended for use on screens over 2000mm wide)

BENEFITS & FEATURES —

- Assemble on-site with pre-powder coated material – quick and easy!
- No welding, riveting or screwing off slats required
- No need for U channel or F section – Side frames affix directly to wall or post
- Patented side frames overcome out of square wall/posts: Friction fitting of slats into side frame allows slats to laterally adjust if needed
- Side frame suits 65mm x 16.5mm or 90mm x 16.5mm slats
- Variable slat spacing: Spacers for 5mm, 9mm or 20mm are available or easily achieve unique spacing by cutting to size from 100mm spacer blocks. For privacy/nil spacing, simply stack slats on top of each other

METHOD 2

PRE-ASSEMBLE PANELS —

Screen panels are assembled at a workshop or onsite. Slats are separated by snap in spacers OR via premium aluminium insert. Fully assembled panel is installed to wall/post with U channel or F section.

- 1 F section (U channel also available)
- 2 Side frame end plates
- 3 Xpress Plus side frame with premium aluminium spacer insert
- 4 65mm x 16.5mm slats (90mm x 16.5mm slats also available)
- 5 Centre support rail (Recommended for use on screens over 2000mm wide)

BENEFITS & FEATURES —

- Pre-assemble panels in workshop or onsite prior to actual install
- Install with U channel or F section – Overcome out of square walls/posts with forgiveness in U channel or F section cavity
- No welding, riveting or screwing off slats required
- Create gaps between slats using snap in spacers OR premium aluminium insert
Premium insert suits 65x16.5mm slat only with 9 or 20mm slat pacing
Snap in spacers of 5mm, 9mm or 20mm available or create your own unique spacer
 For privacy/nil spacing, simply stack slats on top of each other
- Use of premium aluminium insert spacer enables assembly of mill finish panels which may be powder coated as a completed unit
- Side frame suits 65mm x 16.5mm or 90mm x 16.5mm slats

INSTALL WITH F SECTION OR U CHANNEL

9MM SPACING

Aluminium insert

2100MM LONG

Order Code: **XPL-2100-INS09**

OPTIONAL EXTRA

Slide into Xpress Plus side frame for premium 9mm spacing finish

How to use:

1. Screw fix 1x end plate to bottom of side frame
2. Slide aluminium insert into side frame
3. Screw fix 1x end plate to top of side frame
4. Install slats into aluminium insert

TECH SPECS

- PP 55 / AP 55
- Alloy 6063-T6
- 2100mm long
- Specially machined with 9mm spacing to suit 65x16.5mm slat
- lxx = 0.014 x 10E3 mmE4
- lyy = 2.267 x 10E3 mmE4

Important: To ensure correct function of insert

Before sliding in insert, trim cut side frame both ends to remove any excess build up of powder coat in slide channels

SPACERS & EXTRAS

50 PACK Spacer block

5MM SPACING

Order Code: **XPL-SB-50PK-05MM**

- UV stabilised ASA thermoplastic - black
- Snaps into Xpress Plus side frame
- Provides 5mm space between slats
- Fast and easy install with side frame, slats and spacers

50 PACK Spacer block

9MM SPACING

Order Code: **XPL-SB-50PK-09MM**

- UV stabilised ASA thermoplastic - black
- Snaps into Xpress Plus side frame
- Provides 9mm space between slats
- Fast and easy install with side frame, slats and spacers

50 PACK Spacer block

20MM SPACING

Order Code: **XPL-SB-50PK-20MM**

- UV stabilised ASA thermoplastic - black
- Snaps into Xpress Plus side frame
- Provides 21mm space between slats
- Fast and easy install with side frame, slats and spacers

5 PACK Block

100MM LONG

Order Code: **XPL-BLOCK-5PK**

- UV stabilised ABS - black
- Snaps into Xpress Plus side frame
- 100mm long - can be easily cut to any spacer size
- Ideal for custom slat spacing

Louvre brackets

1x LEFT & 1x RIGHT
Black / Monument / Woodland Grey / Silver / Surfmist / White Basalt / Dune / Mill finish

Order Code: **QS-LB**

- 1x left and 1x right bracket per pack
- Die cast aluminium
- Suits 65x16.5mm slat - Press brackets onto end of slat then insert bracket into side frame
- Space brackets at nill, 5, 9, 20mm or any spacing desired
- Cost effective and fast way to achieve a fixed louvre finish

40° FINAL SLAT ANGLE

10 PACK Slat locking clip

Order Code: **XPL-SLATCLIP-10PK**

- Aluminium cast locking clip with SS304 self tapping screws
- Optional extra for install. Acts as mechanical fix to prevent chance of side frames splaying open. Consider if installing side frames to timber posts which may move/twist OR if side frames installed onto aluminium posts for large fence runs - Generally not required for side frame installs to pillars
- Hidden under side frame end plate

Self drilling wafer screws

10Gx16mm - BAG OF 100
Black / Monument / Woodland Grey / Silver / Surfmist / White Basalt / Dune / Mill finish

Order Code: **XP-SCREWS**

- Bags of 100 - 10G x 16mm self drilling wafer head zinc plated
- Powder coated heads for neat finish
- Ideal for fixing of side frames to U channel or F section

Touch up paint

150g SPRAY CAN
Black / Monument / Woodland Grey / Silver / Surfmist / White Basalt / Dune

Order Code:
PAINT-B/G/MN/S/SM/W/BS/D

- Colour match touch up paint
- Simply spray on for minor touch ups

END PLATES & MOUNTING ARMS

2 PACK Side frame end plate

28mm x 32mm

3MM THICK

Order Code: XPL-EP-2PK

MATES WITH XPL-6000-SF

Finishes

TECH SPECS

- Pack of 2 - affix to top and bottom of side frame
- 3mm thick
- Aluminium end plates fix into screw flute in Xpress Plus side frame
- Countersunk holes & screws provide neat flush fitting
- Mechanically fixed end plates ensure sturdy finish

Centre support rail cap 40mm x 13mm

3MM THICK

Order Code: XP-CSRC

MATES WITH XP-5800-CSR

- Nylon cap available in 5 colours
- Simply press into screw flutes in centre support rail
- Easy and fast fitting of cap

Finishes

Centre support rail top/bottom plate

Order Code: XP-BTP

MATES WITH XP-5800-CSR

- Aluminium with countersunk hole machining
- Optional extra to install with centre support rail
- Use to brace off top and/or bottom of centre support rail to structure above or below if desired
- Bracing centre support rail provides extra rigidity to panels - recommended for wide screens

Side frame mounting arm

200MM or 400MM WIDE

Black / Monument / Woodland Grey
Silver / Surfmist / Mill finish

Order Code: XP-ARMSF (200mm W)

XP-ARMSF-400-M (400mm W – Mill finish)

- 2x welded fixing plates - 100mm L x 26mm W x 10mm D
- 2x Ø9mm fixing holes (plate 1) & 2x 7mm fixing holes (plate 2)

Centre support rail mounting arm

200MM or 392MM WIDE

Black / Monument / Woodland Grey
Silver / Surfmist / Mill finish

Order Code: XP-ARMCSR (200mm W)

XP-ARMCSR-392-M (392mm W – Mill finish)

- Specially designed shorter arm to match up with centre support rail when installing Xpress Plus side frames with 200mm or 400mm side frame support arms
- Wall side plate rotated horizontally so as to not protrude into window opening

65mm slat spacing table

Slat Qty

Total number of slats required for height shown in corresponding rows

Slat spacing

Height of gap between each slat

Note: Spacer blocks for 20mm spacing are supplied at 21mm

Height

Overall height of side frame screen including allowance for 3mm end plates at top & bottom of screen

- **Bottom slat:** Sit directly onto aluminium end plate. No spacer is used under bottom of first slat
- **Top slat:** No spacer is used between top slat and finishing top plate

Note: If using slat locking clip at top of screen, add 5mm to 'Height' to allow extra 5mm gap at top of screen

TRADE TIP: CENTRE SUPPORT RAIL

The centre support rail is commonly used to brace off slats in wider screens. If you need to add extra rigidity to the screen, the centre support rail can also be screw fixed at top and/or bottom with our centre support rail **top/bottom plate**. This is ideal for use on wide slat screen panels or panels installed in high wind areas.

The specially designed **top/bottom plate** seamlessly attaches to the centre support rail extrusion providing a hidden screw fixed bracing system.

Centre support rail top/bottom plate

See pages 8 & 23 for more details

Specially machined plate screw fixes to screw flutes in centre support rail extrusion. Fix to top and/or bottom of centre support rail. Top/bottom plate is now mechanically attached to centre support rail.

Fix off centre support rail to horizontal beam, ceiling or floor via sturdy single fixing. Snap on centre support rail cover hides fixings for a clean finish.

Ideal for wider screen panels used in patios

Centre support rail can extend past top and bottom slats for screw fix bracing into top beam and floor. Adds significant rigidity to screen panels.

Ideal for screw fix bracing at bottom for wide screen panels between pillars

QUICKSCREEN

The Quickscreen system is extremely cost effective. Each slat is screwed off once in position. The system allows for variable slat spacing so any gap is achievable. Once slats are screwed off, a snap on cover hides the fixings to provide a seamless finish.

For horizontal slat screening, generally the side frame is screwed directly to a post or wall without need of another U channel or angle.

In 'void' situations where slats cannot be fed in from top down, an F section is available. The F section can also be used where it is preferred to pre-make complete panels in a factory and simply install onsite.

For raking panels/angles, slats can be cut at an angle and screwed off making Quickscreen an ideal solution for difficult installations.

Available in long length supply or custom cut to size ready for assembly.

SYSTEM ADVANTAGES

Concealed fixing: screws are hidden – clean finish!

Low maintenance – unlike timber screening

Cost effective solution

Hinged & sliding gates also available

Adjustable slat spacing

Screw & spacer kit

SCREWS & SPACER BLOCKS

Order Code: **QS-KIT**

- 50 screws: 10G x 18mm long
- 10x spacer blocks
- Spacers enable 9mm, 15mm or 20mm spacing between slats
- Use screws to fix off slats
- Once screws fixed off, spacers may be removed

QUICKSCREEN SYSTEM

65mm slat spacing table

HORIZONTAL SLAT SYSTEM

Slat Qty

Total number of slats required for height shown in corresponding rows

Slat spacing

Height of gap between each slat

Height

The Quickscreen side frames allow for variable gap spacing as each slat is fixed off at desired position. Any gap is achievable. Shown are specifications for the popular spacings of nil, 5mm, 9mm & 20mm spacing.

The formula to calculate variable gap screen height is:
 $((65\text{mm (slat height)} + \text{desired gap}) \times \text{number of slats}) - \text{desired gap} + 3\text{mm}$
 (for top cap).

For example, a 30mm desired gap with 14 slats: $(65 + 30) \times 14 - 30 + 3 = 1303\text{mm}$ high

HORIZONTAL SLAT INSTALL GUIDE

HORIZONTAL SLAT INSTALL GUIDE

1
Take measurement between walls or posts at 3 points: top, middle and bottom (Take note of the smallest measurement)

2
Cut side frames 3mm less than desired height (3mm allows for the top cap)
Affix side frames to wall or post with appropriate fixings

3
Cut aluminium slats 12mm less than total width of opening (Refer to measurement in step 1)

The 12mm deduction takes into account thickness of side frame on both sides of the screen and head of fixings.

Ensure fixings holding side frame do not obstruct slats when dropping in. If so, you may need to trim slats further.

4
Drop in aluminium slats

Tip: Ensure bottom slat is level and screw off at both sides

Optional spacer blocks can be rotated to achieve a 9, 15 or 20mm slat gap. Any gap can be achieved by leaving a desired space. Consider using timber block spacers to achieve other gaps.

5
Screw off each slat as it is dropped in (ensuring each slat is level)
If spacer blocks used, remove after each level is installed.

6
Cut snap on fixing cover to appropriate height

Attach snap on fixing cover to hide screws

Tip: If screen is wider than 1800mm, it is recommended to attach the centre support rail vertically at the centre of the screen. Cut centre support rail to appropriate height of screen and screw off to each slat at back side of screen

Snap on fixing cover install tip

Engage shorter leg of snap-on cover first.

At this point, the snap-on cover will be sitting off the side frame on an angle.

The longer leg must be at open side of side frame.

Starting from the top and working your way down, use a wood block and a hammer/mallet to tap the longer leg into place.

A short, sharp tap may be required to engage the long leg.

VERTICAL SLAT SYSTEM

Vertical slat is a stylish screening solution that continues to increase in popularity. The Quickscreen System allows 65x16.5mm or 90x16.5mm slats to be installed using a cost effective top/bottom rail system. Each slat requires screwing off at top and bottom. Screws are hidden by a heavy duty "U" section at top and bottom. An "F" section is installed vertically on both sides which allows easy installation between posts or pillars. A complete system is available – panels, pedestrian gates and sliding gates.

Ideal for installations between pillars and existing posts!

Available long length supply or custom made to size & flat packed.

ASSEMBLE ON-SITE OR IN YOUR WORKSHOP –

Panels fit into F section on both sides for easy installation. Problems with out of square pillars or posts can be easily overcome with F section fitting.

- 1 F section
- 2 U channel top/bottom rail
- 3 Quickscreen frame
- 4 65mm x 16.5mm slats (90mm x 16.5mm slats also available)

SLAT OPTIONS –

For full slat specification, see pages 6 & 19

- 1 65x16.5mm slat with centre web
- 2 65x16.5mm econo slat
- 3 90x16.5mm slat with centre web

POSTS & ACCESSORIES –

- 1 50x50mm post
- 2 65x65mm heavy duty post
- 3 Top caps
- 4 Dress rings
- 5 Domical covers
- 6 Base plates

For full range of posts & accessories, see pages 42 & 43

2 ways to purchase – choose between cut to size or long length supply

VERTICAL SLAT COMPONENTS

Quickscreen frame

5800MM LONG

Order Code: QS-5800-SF

TECH SPECS

- PP 104 / AP 156
- Alloy 6063-T6 / 5800mm long
- Used as horizontal top & bottom rail
- Each slat must be screw fixed to frame
- Screw fixings are hidden when panel is assembled
- lxx = 9.58 x 10E3 mmE4
- lyy = 8.38 x 10E3 mmE4

Finishes

Heavy duty U channel top/bottom frame

5000MM LONG

Order Code: QS-5000-HORIZ

TECH SPECS

- PP 184 / AP 184
- Alloy 6060-T5
- Quickscreen frame fits neatly inside heavy duty U channel
- 5000mm long
- 2.5mm wall thickness
- lxx = 23.97 x 10E3 mmE4
- lyy = 38.92 x 10E3 mmE4

Finishes

Quickscreen F section

5800MM LONG

Order Code: QS-5800-F

TECH SPECS

- PP 170 / AP 234
- Alloy 6063-T6
- 5800mm long
- Installed vertically at each side of screen into which heavy duty U channel placed horizontally
- 1.4mm wall thickness
- lxx = 20.76 x 10E3 mmE4
- lyy = 42.29 x 10E3 mmE4

Finishes

ACCESSORIES

100mm support foot

HEIGHT ADJUSTABLE
SS316 / POLISH FINISH

Order Code: XP-FOOT-ADJ

- Height adjustable support foot for wider or larger screens
- Screw fix to midpoint of underside of bottom rail U channel
- Easily height adjustable (from 25mm up to 100mm) - stainless steel stem can be cut down and bottom flange reattached with grub screw

Quickscreen kit

SCREWS & SPACER BLOCKS

Order Code: QS-KIT

- 50x 10G x 18mm screws
- 10x spacer blocks
- Spacers enable 9mm, 15mm or 20mm spacing between slats
- Remove spacer blocks once slats screwed off

Self drilling wafer screws

10Gx16mm – BAG OF 100

Black / Monument / Woodland Grey
Silver / Surfmist / White / Basalt

Dune / Mill finish

Order Code: XP-SCREWS

- Bags of 100 - 10G x 16mm self drilling wafer head zinc plated
- Powder coated heads for neat finish
- Ideal for fixing top/bottom frame to F section
- Can also be used for fixing slats to top/bottom frame

Touch up paint

150g SPRAY CAN

Black / Monument / Woodland Grey
Silver / Surfmist / White / Basalt / Dune

Order Code:

PAINT-B/G/MN/S/SM/W/BS/D

- Colour match touch up paint
- Simply spray on for minor touch ups

VERTICAL SLAT INSTALL GUIDE

- 1 Place first slat on padded bearers, then place the top and bottom frames onto the slat.

- 2 Position front edge of slat required distance from the edge of the top and bottom frame and screw through frame to affix at both end of the slat with 1x screw per end.

- 3 Slide remaining slats into the top and bottom frame and attach with single screw through top and bottom frames to affix, then check measure diagonals. Double screw fix first and last slats. **Keep slat spacing in mind!**

- 4 Place U channel over top and bottom frame, pre-drill 3mm holes and screw off in three points on top and bottom of the U channel – Measure in 50mm from the left and right edges, then one in the centre. **Ensure sufficient pilot holes are drilled before affixing, making sure they won't hit other screws.**

For panels over 1800mm wide, we suggest using a height adjustable foot underneath screen to prevent sagging of panel. Pre-drill 3mm holes and affix with screws. If using the height adjustable foot there is no need for a screw in the middle of the bottom rail.

- 5 Place F section over each side of panel – F section will stay in place without screws until the last step.

- 6 Lift panel into opening and push F section out to sit flush to wall then affix F section to wall (fixings not included). **Ensure sufficient pilot holes are drilled before affixing.**

- 6 Affix panel to F section by pre-drilling 3mm holes and screwing through F section in corner positions – we suggest using 2 screws in each corner

POSTS & ACCESSORIES

APPLICABLE TO XPRESS PLUS, QUICKSCREEN SIDE FRAME & VERTICAL SLAT SYSTEMS

50x50mm full post

2400MM or 6000MM LONG

Order Code: XP-2400/6000-FP

Finishes

TECH SPECS

- Alloy 6063 - T6
- 1.8mm wall thickness with 3mm ribs
- Screw flutes to screw on base plate if required
- Aluminium powder coated press-in top plate included with 2400mm posts
- lxx = 170.44 x 10E3 mmE4
- lyy = 170.44 x 10E3 mmE4

4x screw flutes in post allow tight fit of press in flat aluminium top plate.

Optional base plate can be attached using screw flutes for base plated post installations.

65x65mm heavy duty post

2400MM or 6000MM LONG

Order Code: XP-2400/6000-65HD

Finishes

TECH SPECS

- 65x65mm larger profile, heavy duty post
- Alloy 6063 - T6
- 3mm wall thickness
- Screw flutes to screw on base plate if required
- Aluminium powder coated press-in top plate included with 2400mm posts
- lxx = 464.62 x 10E3 mmE4
- lyy = 464.62 x 10E3 mmE4

4x screw flutes in post allow tight fit of press in flat aluminium top plate.

Optional base plate can be attached using screw flutes for base plated post installations.

50x50mm post flat top plate

POWDER COATED ALUMINIUM

Black / Monument / Woodland Grey / Silver
Surfmist White / Basalt / Dune / Mill finish

Order Code: XP-TP

- Alloy ADC12 aluminium plate
- Press into post screw flutes for secure fixing
- 2400mm posts come with free top plate included - only purchase if extra top plates are required
- Top plates required for 6000mm posts - sold separately

65x65mm post flat top plate

POWDER COATED ALUMINIUM

Black / Monument / Woodland Grey / Silver
Surfmist White / Basalt / Dune / Mill finish

Order Code: XP-65TP

- Alloy ADC12 aluminium plate
- Press into post screw flutes for secure fixing
- 2400mm posts come with free top plate included - only purchase if extra top plates are required
- Top plates required for 6000mm posts - sold separately

POSTS & ACCESSORIES

50x50mm post base plate set

POWDER COATED ALUMINIUM
Black / Monument / Woodland Grey
Silver / Surfmist / White / Basalt
Dune / Mill finish

Order Code: XP-BP-SET

- Simply screw base plate onto core drill post
- 4x 12G x 50mm long CSK screws included in set

Powder coat colours

SUITS 65x65MM POSTS

65x65mm post base plate set

POWDER COATED ALUMINIUM
Black / Monument / Woodland Grey
Silver / Surfmist / White / Basalt
Dune / Mill finish

Order Code: XP-65BP-SET

- Simply screw base plate onto core drill post
- 4x 12G x 50mm long CSK screws included in set

Powder coat colours

Discreet screws fix two parts of cover together

Two part domical cover

POWDER COATED ALUMINIUM
Black / Monument / Woodland Grey / Silver
Surfmist / White / Basalt / Dune / Mill finish

Order Code: XP-DC-2P (suits 50mm post)

XP-65DC-2P (suits 65mm post)

50mm domical cover:

- Suits 50x50mm post with screw fixed base plate
- 106x106mm outer - 52x52mm inner - Alloy ADC12
- Cover can be fitted to posts after fence is installed

65mm domical cover:

- Suits 65x65mm post with screw fixed base plate
- 122x106mm outer - 67x67mm inner - Alloy ADC12
- Cover can be fitted to posts after fence is installed

Post dress rings

POWDER COATED ALUMINIUM
Black / Monument / Woodland Grey / Silver
Surfmist / White / Basalt / Dune / Mill finish

Order Code: XP-DR (suits 50mm post)

XP-65DR (suits 65mm post)

50mm dress rings:

- Suits 50x50mm core drill posts
- 100mm x 100mm outer - 52mm x 52mm inner

65mm dress rings:

- Suits 65x65mm heavy duty post
- 115mm x 115mm outer - 67mm x 67mm inner

SLAT CAPS & TOPPER

SLAT CAPS & TOPPER

65MM SLAT CAPS

Suits 65x16.5mm slats

Order Code: XP-EC65-4PK

TECH SPECS

- Alloy ADC12 aluminium flat end cap
- Available powder coated or mill finish
- Suits our 65x16.5mm slat
- Press into end of slat
- Innovative design feature with polymer inserts ensures tight press in fit (inserts supplied with every cap)
- Internally slotted allowing end cap to be used with webbed or non-webbed slats
- Sold as a 4 pack

Finishes

BLACK (B) MONUMENT (MN) WOODLAND GREY (G) SILVER (S) SURFMIST (SM) WHITE (W) BASALT (BS) DUNE (D) MILL (M)

DESIGN INNOVATION

Tapered polymer insert can be installed one or both sides of cap. Use inserts if cap not a tight fit in slat.

90MM SLAT CAPS

Suits 90x16.5mm slats

Order Code: XP-EC90-4PK

TECH SPECS

- Alloy ADC12 aluminium flat end cap
- Available powder coated or mill finish
- Suits our 90x16.5mm slat
- Press into end of slat
- Innovative design feature with polymer inserts ensures tight press in fit (inserts supplied with every cap)
- Internally slotted allowing end cap to be used with webbed or non-webbed slats
- Sold as a 4 pack

Finishes

BLACK (B) MONUMENT (MN) WOODLAND GREY (G) SILVER (S) SURFMIST (SM) WHITE (W) BASALT (BS) DUNE (D) MILL (M)

DESIGN INNOVATION

Tapered polymer insert can be installed one or both sides of topper. Use inserts if topper not a tight fit in slat.

FEDERATION TOPPER

Suits 65x16.5mm slats

Order Code: XP-FEDTOP-4PK

TECH SPECS

- Use to achieve a vertical picket fence look
- Alloy ADC12 aluminium federation topper
- Suits our 65x16.5mm slat
- Available powder coated pearl white or mill finish
- Press into end of slat
- Innovative design feature with polymer inserts ensures tight press in fit (inserts supplied)
- Internally slotted allowing end cap to be used with webbed or non-webbed slats
- Sold as a 4 pack

Finishes

WHITE (W) MILL (M)

SLAT CAPS & TOPPER

Aluminium slat installed vertically allows for a number of stylish design options including radiator/blade fencing or picket top fencing. A significant advantage of powder coated aluminium is the minimal ongoing maintenance required.

Our systems allow for easy NON-WELD assembly achieved via hidden screw fixings. The innovative horizontal top & bottom rails have an open back cavity allowing easy entry for screw fixing of slats. Screws are hidden by a simple snap in cover giving a seamless finish.

The simple screw fix system provides a significant cost saving versus traditional fully welded/fabricated panels.

1 65x16.5mm slat
with centre web
6100mm long
XP-6100-S65

2 90x16.5mm slat
with centre web
6100mm long
QS-6100-S90

3 45x45mm batten
6100mm long
XBAT-6100-045X045

4 Rear snap in infill
4000mm long
XP-4000-COVER

5 Aluminium horizontal
bracket
Pack of 2 – Open side
Affix brackets to post or wall
XBAT-BH20

6 12G x 65mm screws
hex flange head
Pack of 10
XP-SCREWSGF-10PK
• Use for radiator style

7 65mm end cap
Pack of 4
XP-EC65-4PK

8 90mm end cap
Pack of 4
XP-EC90-4PK

9 Federation topper
Pack of 4
XP-FEDTOP-4PK

10 Pan head screws
10G x 16mm – Pack of 100
XP-SCREWS

RADIATOR/BLADE FENCING

NO WELDING REQUIRED

SLAT CAPS & TOPPER

PALING FENCING

NO WELDING REQUIRED

FEDERATION/PICKET FENCING

NO WELDING REQUIRED

innovative, non-weld Pedestrian gates

AVAILABLE IN 2 CONVENIENT SUPPLY OPTIONS

1

Long length supply

Buy long length extrusions then cut to size and assemble on-site or at your premises

2

Cut to size service

Simply provide gate size required – we will cut to size and flat pack for easy assembly

Pedestrian gate options

SELECT FROM A RANGE OF PEDESTRIAN GATE OPTIONS

We can cut to size, flat pack and send Australia wide or you can purchase long length extrusions and cut to size yourself.

Assemble pre-powder coated gates with no welding or riveting required.

Save time and money without requirement of fully fabricating and welding gates.

Contact us for detailed assembly instructions

1 Horizontal slat pedestrian gate

Fitted with D&D Lokk Latch Deluxe

65mm x 16.5mm slats with 9mm or 20mm slat spacing

Patented gate side frames for fast assembly

2 Horizontal slat pedestrian gate

Fitted with D&D Lokk Latch Deluxe

65mm x 16.5mm or 90mm x 16.5mm slats

Variable slat spacing

Each slat required to be screw fixed

3 Horizontal slat pedestrian gate

Fitted with Lockwood 001 deadlatch

65mm x 16.5mm slats with 9mm or 20mm slat spacing

Patented gate side frames for fast assembly

Patented non-weld lockbox

4 Horizontal slat pedestrian gate

Fitted with knob or lever handle

65mm x 16.5mm slats with 9mm or 20mm slat spacing

Patented gate side frames for fast assembly

Patented non-weld lockbox

5 Vertical slat pedestrian gate

Fitted with D&D Lokk Latch Deluxe

65mm x 16.5mm or 90mm x 16.5mm slats

Variable slat spacing

Each slat required to be screw fixed

PEDESTRIAN GATE OPTIONS

Option 1

Horizontal slot gate with 65mm x 16.5mm slats
9mm or 20mm slat spacing
Fitted with the D&D Lokk Latch Deluxe

SEE PAGES 56-61 FOR FULL SPECIFICATIONS ON ALL PRODUCTS LISTED BELOW

- 1 **Patented non-weld gate side frames**
Machined drill holes & slots – 9mm or 20mm spacing
Suits 65x16.5mm slat
XP-4200-GSF09 or XP-4200-GSF20
- 2 **Gate insert**
Snaps into gate side frame to hide gate slat fixing screws
XP-4200-GI
- 3 **Gate frame cap**
Simply press into top of gate frames
XP-GFC
- 4 **Gate frame screws**
12 gauge x 65mm long with flange hex head
XP-SCREWSGF-10PK
- 5 **Gate hinges**
A range of hinging options available
See pages 64-68 & 74-76 for hinge options
- 6 **65mm x 16.5mm gate slat w/ 2x screw flutes**
Screw fluted slats at top/middle/bottom of gate
XP-6100-GB65
- 7 **65x16.5mm slat**
Standard slats held in place with patented friction fitting gate side frame
XP-6100-S65
- 8 **Lokk Latch Deluxe**
Manufactured by D&D Technologies
Lockable both sides
LL-DL | See page 70 & 76

! INFORMATION BELOW RELATES TO OPTION 1 ONLY

GATE CONFIGURATIONS 'Gate slat' positioning in conjunction with width & height specifications

Up to 1000mm wide

Gate blades:

- 2x top
- 1x middle
- 1x bottom

From 1001mm to 1200mm wide

Gate blades:

- 2x top
- 1x middle
- 2x bottom

PEDESTRIAN GATE OPTIONS

Option 2

Horizontal slat gate with 65mm or 90mm x 16.5mm slats
Variable slat spacing including nil spacing
Fitted with the D&D Lokk Latch Deluxe
Maximum 1200mm wide

SEE PAGES 56-61 FOR FULL SPECIFICATIONS ON ALL PRODUCTS LISTED BELOW

1 Patented non-weld gate side frames
Machined drill holes
XP-4200-GSF20

2 Gate insert
Snaps into gate side frame to hide required fixing screws
XP-4200-GI

3 Gate frame cap
Simply press into top of gate frames
XP-GFC

4 Gate frame screws
12 gauge x 65mm long with flange hex head
Use to fix off heavy duty top/bottom rail
XP-SCREWSGF-10PK

5 Gate hinges
A range of hinging options available
See pages 64-68 & 74-76 for hinge options

6 Non-punched gate infill
Replaces slotted infill from gate side frame
XP-XBAT-4200-INF

7 Quickscreen sideframe
Affix to inner face of gate side frame
Insert and screw off each slat – variable spacing
QS-5800-SF

8 Quickscreen concealed fixing cover
Snap-on cover to hide slat fixing screws
QS-5800-CFC

9 Fixing screws
Use to affix Quickscreen side frames and slats
All slats must be screw fixed to side frames
XP-SCREWS

10 65x16.5mm or 90x16.5mm slat
Slats held in place with fixing screws
XP-6100-S65 / QS-6100-S90

11 65x45mm heavy duty rail
Position at top & bottom of gate
XP-6100-HD6545

12 Lokk Latch Deluxe w/ packer
Manufactured by D&D Technologies
Lockable both sides
LL-DL | See page 70 & 76

! INFORMATION BELOW RELATES TO OPTION 1 ONLY

From 1201 mm to 1500mm wide

Gate blades:
• 3x top
• 1x middle
• 2x bottom

From 1501 mm to 2100mm wide

Gate blades:
• 1x 2nd slat down
• 1x middle
• 1x ¾ down

Top & bottom rail:
• 1x HD top rail
• 1x HD bottom rail

Brace:
• 1x centre support rail (Diagonal)

PEDESTRIAN GATE OPTIONS

Option 3

Horizontal slat gate with 65mm x 16.5mm slats
9mm or 20mm slat spacing
Fitted with the Lockwood 001 deadlatch
*Inwards swinging only

SEE PAGES 56-61 FOR FULL SPECIFICATIONS ON ALL PRODUCTS LISTED BELOW

- 1 **Patented non-weld gate side frames**
Machined drill holes & slots – 9mm or 20mm spacing
Suits 65x16.5mm slat
XP-4200-GSF09 or XP-4200-GSF20
- 2 **Gate insert**
Snaps into gate side frame to hide gate slat fixing screws
XP-4200-GI
- 3 **Gate stop & rubber**
Required for latch side of gate
XP-4200-GSTOP / XP-GATESTOP-RUB
- 4 **Aluminium CSK blind rivet**
CSK rivets recommended due to 3mm gap between latching post & gate side frame
XP-GATESTOP-RIV-10PK
- 5 **Gate frame cap**
Simply press into top of gate frames
XP-GFC
- 6 **Gate frame screws**
12 gauge x 65mm long with flange hex head
XP-SCREWSGF-10PK
- 7 **Gate hinges**
A range of hinging options available
See pages 64-68 & 74-76 for hinge options
- 8 **65mm x 16.5mm gate slat w/ 2x screw flutes**
Screw fluted slats at top/middle/bottom of gate
XP-6100-GB65
- 9 **65x16.5mm slat**
Standard slats held in place with patented friction fitting gate side frame
XP-6100-S65

- 10 **Deadlatch lockbox**
Patented non-weld lockbox to suit Lockwood 001 deadlatch
XP-LBOX-DL

- 11 **Lockwood 001 deadlatch**
Manufactured by Lockwood
XP-DL001 | See page 60

! INFORMATION BELOW RELATES TO OPTIONS 3 & 4

GATE CONFIGURATIONS 'Gate slat' positioning in conjunction with width & height specifications

Up to 1000mm wide

Gate blades:

- 2x top
- 1x middle
- 1x bottom

From 1001mm to 1200mm wide

Gate blades:

- 2x top
- 1x middle
- 2x bottom

PEDESTRIAN GATE OPTIONS

Option 4

Horizontal slot gate with 65mm x 16.5mm slats
9mm or 20mm slat spacing
Fitted with knob or lever handle set

SEE PAGES 56-61 FOR FULL SPECIFICATIONS ON ALL PRODUCTS LISTED BELOW

1 Gate lever set lock box kit

Inclusions:

- 1a 2x 2094mm gate side frame (9mm or 20mm spacing)
 - 1b 2x Gate insert
 - 1c 2x Machined gate stop (Left & right) with bulb rubber
 - 1d 1x Non-machined gate stop (for hinge side)
 - 1e 2x Gate frame caps
 - 1f 1x 10 pack Wafer head 10-16x16mm screws (For affixing gate stop)
- XP-GKIT-LSET09 or XP-GKIT-LSET20

2 Gate frame screws

12 gauge x 65mm long with flange hex head
XP-SCREWSGF-10PK

3 Gate hinges

A range of hinging options available
See pages 64-68 & 74-76 for hinge options

4 65mm x 16.5mm gate slat w/ 2x screw flutes

Screw fluted slats at top/middle/bottom of gate
XP-6100-GB65

5 65x16.5mm slat

Standard slats held in place with patented friction fitting gate side frame
XP-6100-S65

6 Lockbox

Patented non-weld lockbox to suit knob/lever handle set
XP-LBOX-LSET

7 Knob or lever handle set

Key lockable both sides
XP-HDL-KNOB / XP-HDL-LEVER / XP-HDL-LW534
See page 60

! INFORMATION BELOW RELATES TO OPTIONS 3 & 4

From 1201 mm to 1500mm wide

Gate blades:

- 3x top
- 1x middle
- 2x bottom

From 1501 mm to 2100mm wide

Gate blades:

- 1x 2nd slat down
- 1x middle
- 1x ¾ down

Top & bottom rail:

- 1x HD top rail
- 1x HD bottom rail

Brace:

- 1x centre support rail (Diagonal)

PEDESTRIAN GATE OPTIONS

Option 5

Vertical slat gate with 65mm or 90mm x 16.5mm slats
Variable slat spacing including nil spacing
Fitted with the D&D Lokk Latch Deluxe
Maximum 1200mm wide

SEE PAGES 56-61 FOR FULL SPECIFICATIONS ON ALL PRODUCTS LISTED BELOW

- 1 **Patented non-weld gate side frames**
Machined drill holes
XP-4200-GSF20
- 2 **Gate insert**
Snaps into gate side frame to hide top & bottom rail fixing screws
XP-4200-GI
- 3 **Gate frame cap**
Simply press into top of gate frames
XP-GFC
- 4 **Gate frame screws**
12 gauge x 65mm long with flange hex head
Use to fix off heavy duty top/bottom rail
XP-SCREWSGF-10PK
- 5 **Gate hinges**
A range of hinging options available
See pages 64-68 & 74-76 for hinge options
- 6 **Non-punched gate infill**
Replaces slotted infill from gate side frame
XP-XBAT-4200-INF
- 7 **U channel**
Affix to vertical inner face of gate side frames
Reduces potential light gap on both vertical edges of gate
QS-5000-HORIZ
- 8 **Quickscreen sideframe**
Affix to inner face of top & bottom rails
Insert and screw off each slat – variable spacing
QS-5800-SF
- 9 **Quickscreen concealed fixing cover**
Snap-on cover to hide slat fixing screws
QS-5800-CFC
- 10 **Fixing screws**
Use to affix Quickscreen side frames and slats
All slats must be screw fixed to side frames
XP-SCREWS
- 11 **65x45mm heavy duty rail**
Position at top & bottom of gate
XP-6100-HD6545
- 12 **65x16.5mm or 90x16.5mm slat**
Slats held in place with fixing screws
XP-6100-S65 / QS-6100-S90
- 13 **Lokk Latch Deluxe w/ packer**
Manufactured by D&D Technologies
Lockable both sides
LL-DL | See page 70 & 76

When calculating even spacing between vertical slats, overall gate width should be carefully considered to ensure first and last gap (between gate side frames and first/last slat) are kept uniform with other slat spacing

GATE EXTRUSIONS

PATENTED FRICTION FIT SYSTEM

9MM SPACING Slotted gate side frame

4200MM LONG

Order Code: XP-4200-GSF09

Finishes

TECH SPECS

- PP 170
- Alloy 6063-T5 / 4200mm long
- 3mm wall thickness with 3.8mm centre crossmember
- Slotted insert to suit 65x16.5mm slat with 9mm spacing
- Patented frame for friction insertion of slats
- Crossmember machined with drill holes along entire length to suit screw fixing of strategically placed 'gate slats' featuring screw flutes
- lxx = 6.294 x 10E3 mmE4
- lyy = 152.403 x 10E3 mmE4

PATENTED FRICTION FIT SYSTEM

20MM SPACING Slotted gate side frame

4200MM LONG

Order Code: XP-4200-GSF20

Finishes

TECH SPECS

- PP 170
- Alloy 6063-T5 / 4200mm long
- 3mm wall thickness with 3.8mm centre crossmember
- Slotted insert to suit 65x16.5mm slat with 20mm spacing
- Patented frame for friction insertion of slats
- Crossmember machined with drill holes along entire length to suit screw fixing of strategically placed 'gate slats' featuring screw flutes
- lxx = 6.294 x 10E3 mmE4
- lyy = 152.403 x 10E3 mmE4

Snap-in gate insert

4200MM LONG

Order Code: XP-4200-GI

MATES WITH XP-4200-GSF09/20

Finishes

TECH SPECS

- PP 100 / AP 100
- Alloy 6060-T5 / 4200mm long
- Snap-in gate insert mates with gate side frame
- Hides screws required for fixing 'gate slats' into position
- lxx = 0.86 x 10E3 mmE4
- lyy = 5.93 x 10E3 mmE4

GATE EXTRUSIONS

NON-PUNCHED Gate infill

4200MM LONG

Order Code: **XP-XBAT-4200-INF**

TECH SPECS

- PP 100 / AP 133
- Alloy 6060-T5 / 4200mm long
- Non-punched snap-in infill for gate side frames
- Required when making vertical gates, variable spaced horizontal slat gates or gates using 90mm x 16.5mm slats
- Replace existing slotted infill in gate side frame with non-punched gate infill
- lxx = 2.94 x 10E3 mmE4
- lyy = 9.50 x 10E3 mmE4

Finishes

Heavy duty top/bottom rail

6100MM LONG

Order Code: **XP-6100-HD6545**

TECH SPECS

- PP 219 / AP 219
- Alloy 6063-T5 / 6100mm long
- 3mm wall thickness
- Heavy duty top/bottom rail used for wide gates
- Also required for vertical slat gates, horizontal gates with variable spacing or gates fitted with a lockbox
- Non weld assembly using 12 gauge screws into screw flutes (Code: XP-SCREWSGF-10PK)
- lxx = 206.98 x 10E3 mmE4
- lyy = 427.32 x 10E3 mmE4

Finishes

65mm x 16.5mm gate slat with centre web & 2x screw flutes

6100MM LONG

Order Code: **XP-6100-GB65**

TECH SPECS

- PP 158 / AP 158
- Alloy 6063-T6
- 6100mm long
- 1.5mm wall thickness with 1.2mm wall centre web
- 2x screw flutes
- Used in strategic positions for pedestrian gate assembly
- Non weld assembly using 12 gauge screws into screw flutes (Code: XP-SCREWSGF-10PK)
- lxx = 11.85 x 10E3 mmE4
- lyy = 144.09 x 10E3 mmE4

Finishes

STANDARD SLATS ALSO
REQUIRED FOR GATE ASSEMBLY
SEE PAGE 6 FOR SLAT OPTIONS

GATE EXTRUSIONS

Quickscreen side frame

5800MM LONG
Order Code: **QS-5800-SF**

TECH SPECS

- PP 104 / AP 156
- Alloy 6063-T6 / 5800mm long
- Used for gates with horizontal variable slat spacing and vertical slat gates
- Each slat must be screw fixed to side frame
- Affix side frame to 45mm x 40mm gate frame
- lxx = 9.58 x 10E3 mmE4
- lyy = 8.38 x 10E3 mmE4

Finishes

Quickscreen concealed fixing cover

5800MM LONG
Order Code: **QS-5800-CFC**

MATES WITH QS-5800-SF

TECH SPECS

- PP 100 / AP 116
- Alloy 6060-T5 / 5800mm long
- Snap-on cover for Quickscreen side frame
- Hides screws used to affix slats to side frame
- lxx = 0.71 x 10E3 mmE4
- lyy = 6.58 x 10E3 mmE4

Finishes

Gate stop

4200MM LONG
Order Code: **XP-4200-GSTOP**

TECH SPECS

- PP 106 / AP 123
- Alloy 6063-T5 / 4200mm long
- Must be used on gates fitted with Lockwood 001 lockbox
- Bulb rubber sold separately (Code: XP-GATESTOP-RUB)
- lxx = 7.61 x 10E3 mmE4
- lyy = 10.95 x 10E3 mmE4

Finishes

GATE EXTRUSIONS

Heavy duty U channel

5000MM LONG

Order Code: **QS-5000-HORIZ**

TECH SPECS

- PP 184 / AP 184
- Alloy 6060-T5
- 5000mm long
- 2.5mm wall thickness
- Required for vertical slat pedestrian gates only. Use on both internal vertical sides to reduce light gaps at gate edges
- lxx = 23.97 x 10E3 mmE4
- lyy = 38.92 x 10E3 mmE4

Finishes

9mm gate lockbox kit

SUITABLE FOR LEVER/KNOB LOCK SET

Order Code: **XP-GKIT-LSET09**

- Gate side frame kit is specifically machined to suit horizontal pedestrian gate with lockbox and KNOB/LEVER set
- Patented non-weld assembly system: Use pre-powder coated aluminium lockbox (Code: XP-LBOX-LSET)
- Suits 65x16mm slats with 9mm spacing (Sold separately)
- Lockbox and lever/knob handle sold separately

KIT INCLUSIONS

- 2 x 2094mm long Gate Side Frame slotted with 9mm space (1pc has extra machining for lock set)
- 2 x 2094mm long Gate Inserts
- 1 x 2200mm long Right hand machined Gate Stop
- 1 x 2200mm long Left hand machined Gate Stop
- 1 x 2200mm long non-machined Gate Stop (for hinge side)
- 2 x 2250mm long Gate Stop Rubber
- 2 x Gate Frame Cap - Black nylon
- 1 x 10 pack Wafer head 10-16 x 16mm screws (for affixing gate stop)

Finishes

GATE EXTRUSION & ACCESSORIES

20mm gate lockbox kit

SUITABLE FOR LEVER/KNOB LOCK SET

Order Code: **XP-GKIT-LSET20**

- Gate side frame kit is specifically machined to suit horizontal pedestrian gate with lockbox and KNOB/LEVER set
- Patented non-weld assembly system: Use pre-powder coated aluminium lockbox (Code: XP-LBOX-LSET)
- Suits 65x16mm slats with 20mm spacing (Sold separately)
- Lockbox and lever/knob handle sold separately

Finishes

KIT INCLUSIONS

- a. 2 x 2094mm long Gate Side Frame slotted with 20mm space (1pc has extra machining for lock set)
- b. 2 x 2094mm long Gate Inserts
- c. 1 x 2200mm long Right hand machined Gate Stop
- d. 1 x 2200mm long Left hand machined Gate Stop
- e. 1 x 2200mm long non-machined Gate Stop (for hinge side)
- f. 2 x 2250mm long Gate Stop Rubber
- g. 2 x Gate Frame Cap - Black nylon
- h. 1 x 10 pack Wafer head 10-16 x 16mm screws (for affixing gate stop)

Deadlatch lockbox

ALUMINIUM

Black / Monument / Woodland Grey / Silver / Surfmist / White Basalt / Dune / Mill finish

Order Code: **XP-LBOX-DL**

- Patented non-weld lockbox
- Suits horizontal slat gates with 65x16.5mm slats
- Must use with gate side frame (XP-4200-GSF09/20)
- Screw fix assembly of pre-powder coated lockbox and extrusion
- Suits Lockwood 001 deadlatch (XP-DL001)

Lever/knob lockbox

ALUMINIUM

Black / Monument / Woodland Grey / Silver / Surfmist / White Basalt / Dune / Mill finish

Order Code: **XP-LBOX-LSET**

- Patented non-weld lockbox
- Suits horizontal slat gates with 65x16.5mm slats
- Must use with gate kits (XP-GKIT-LSET09/20)
- Screw fix assembly of pre-powder coated lockbox and extrusion
- Suits knob or lever sets (Stanley or Lockwood models)

Lockwood round knob set

HIGH PURITY ZINC ALLOY

Order Code: **XP-HDL-LW534**

- Lockwood model 534
- Knob set keyed both sides
- Lock / unlock both sides
- Suits left or right gate opening
- Satin Chrome brushed finish
- C4 5 pin on outside
- C4 6 pin restricted compatible on inside

Lockwood 001 deadlatch

12Gx65MM HEX
FLANGE HEAD

Order Code: **XP-DL001**

- Lockwood 001 deadlatch to suit metal frames
- Market leading performance & reliability
- Only suits inwards swinging gate
- Cut-resistant stainless steel bolt

Stanley round knob set

STAINLESS STEEL

Order Code: **XP-HDL-KNOB**

- Knob set keyed both sides
- Lock / unlock both sides
- Suits left or right gate opening
- Stainless steel knob and rose
- C4 6 pin restricted compatible (Inside & outside)

Stanley lever set

STAINLESS STEEL

Order Code: **XP-HDL-LEVER**

- Lever set keyed both sides
- Lock / unlock both sides
- Suits left or right gate opening
- Stainless steel knob and rose
- C4 6 pin restricted compatible (Inside & outside)

GATE ACCESSORIES

Hinge panel brace screws

12Gx40MM – 12 PACK

Black / Monument / Woodland Grey / Silver / Surfmist / White Basalt / Dune / Mill finish

Order Code: XPL-SCHEX-12PK

- Screws fix through post and slat both sides of panel that gate hinges from
- Fix off both sides at top slat and mid slat positions
- Pilot hole required before screw fixing (ensure drill does not penetrate other side of post)
- Must be used to provide rigidity of hinging panel adjacent to gate

Applicable if using XPress PLUS post system next to gate

Finishes

Gate frame cap

NYLON

Black / Monument / Woodland Grey / Silver / Surfmist / White

Order Code: XP-GFC

- UV stabilised nylon – 3mm thick cap
- Available in 5 colours
- Suits gate side frame
- Press-in flat cap

Finishes

Self drilling wafer screws

10Gx16MM – BAG OF 100

Black / Monument / Woodland Grey / Silver / Surfmist / White Basalt / Dune / Mill finish

Order Code: XP-SCREWS

- 10G x 16mm self drilling wafer head zinc plated
- Powder coated heads for neat finish
- Use to screw fix slats to Quickscreen side frame or to affix centre support rail to slats

Countersunk blind rivet

4.0x8.4

Order Code: XP-GATESTOP-RIV-10PK

- Countersunk aluminium rivet – 10 pack
- Use for affixing gate stop to post when using a lockbox with Lockwood 001 deadlatch – due to 3mm gap requirement between gate side frame and post rivets are required (as screw heads may interfere)

PACK OF 10 Gate frame screws

12Gx65MM HEX FLANGE HEAD

Order Code: XP-SCREWSGF-10PK

- Use to secure gate slats to gate side frame through pre-machined holes in gate side frames
- Hex flange head for easy assembly

Electric Striker

Order Code: XP-HDL-ES

- Optional electric striker kit
- SS304 striker – Left or right handing
- Power required to lock/unlock
- 12 volt (DC current)
- LATCHING POST – face mount face plate with built in side keeper
- Requirement to notch latching post to recess electric striker mechanism
- Allow 9mm latching gap
- Compatible with locks: XP-HDL-LW534 XP-HDL-KNOB XP-HDL-LEVER

* Routing template included with kit

Gate stop rubber

4300MM LONG

Order Code: XP-GATESTOP-RUB

- Used as bumper for gate stop (mates with XP-4200-GSTOP)
- Rubber feeds into cavity in gate stop extrusion
- Cut to required length

Nylon packer

USE WITH D&D LOKK LATCH DELUXE

Order Code: XP-PACKER

- UV stabilised nylon
- Must be used when installing a D&D Lokk Latch Deluxe
- Packer aligns Lokk Latch Deluxe with gate side frame
- Affixes to inner face of gate side frame positioned under Lokk Latch striker

GATE ASSEMBLY: SIMPLE OVERVIEW

GATE OPTIONS 1, 3 & 4

1 On a flat protected surface, lay 1x gate side frame with slotted spacer infill and rest against a padded stop and tap slats and gate blades into place

2 Elevate slats and gate side frame on two padded bearers. Engage second gate side frame to slats and tap frame until all slats are fully engaged
TIP: Start at one end and work slats in from one end to the other

3 Screw off gate blades at required positions. Ensure gate is square by measuring diagonals

4 Slide 2x outer infills down into position to hide screw heads

5 Slide 2x outer infills past end of gate side frame (approx. 10mm), then using pliers, bend inner legs of outer infill slightly outwards. Tap outer infill back to level with gate side frame
TIP: This step stops the outer infill from sliding down prior to hardware installation

6 Insert top caps into side frames

To determine the actual slat width for your gate, make a deduction of 36mm to the overall gate width (outer edge to outer edge of gate side frame)

FORMULA FOR SLAT WIDTH:
OVERALL GATE WIDTH – 36MM

You need to allow for hinge and latch gaps
Check hinge and latch hardware specifications for gaps required and take this information into account when determining overall gate width

Contact us for further installation instructions when using lockboxes etc.

GATE ASSEMBLY

GATES WIDER THAN 1500MM

- 1 When the gate is wider than 1500mm, 2x heavy duty top/bottom rails are used in place of the top and bottom gate blades (Additional gate blades are still required as per page 53).

- 2 Once top/bottom rails and all slats are installed, ensure gate is square. The slimline brace must be measured and cut with an aluminium drop saw to run diagonally across the back face of the gate. Secure each slat using XP-SCREWS.

IMPORTANT:

Ensure the slimline brace is installed running from the 'bottom' hinge side corner to the top 'latch' side corner

SUGGESTED HINGE FIXING METHOD USING 65MM M8 BOLTS, SPRING WASHERS & NUTS FOR GATES 1500MM AND UNDER

TECH SPECS

- 250mm extension for COLORBOND® steel fencing to add slat screening toppers
- 13mm gap between slats
- Suits EXISTING or NEW fence installations
- Sturdy powder coated aluminium side frames (pair of 2)
- Simply push in 65x16.5mm slats x 3 (slats sold separately)
- Patented friction fit - no welding or screwing of slats needed
- Slats are held firmly in position

INSTALL WITH OUR SELECTION OF 65X16.5mm SLATS

Available with centre web or without. Refer page 6 for more info

Option 1

TOPPER ABOVE C SECTION POSTS AND RAIL

1

Install Topper by inserting the U-bracket located on the bottom of the topper between the top rail and C section post and secure post off both sides with tek screws.

Option 2

TOPPER FITTED INSIDE C SECTION POSTS

1

Remove the U-bracket located on the bottom of the Topper by unscrewing the 2 screws.

2

Insert the Topper into the C section posts securing into position both sides with tek screw.

DIAMOND REVOLUTION DRILL

Installation tip
Speed setting 1: Use with 76mm or larger core drill bits
Speed setting 2: Use with 63mm or smaller core drill bits

Diamond revolution drill

Core drill

Order Code: REV-CD-2S

- 2 speed core drill - 1500W
- Comes with case, allen key, spare set of brushes and manual
- Safety switch
- Uses common size 1 1/4" UNC male thread for diamond core bits

Technical data

- Voltage: 240V
- Rated frequency: 50-60Hz
- Rated input power: 1500W
- No load speed r/min: 2100/950
- Weight: 8.8kg

Diamond revolution stand

Suits diamond revolution core drill

Order Code: REV-STAND

- Steel and aluminium construction
- Height: 800mm
- Base: 330mm x 380mm
- Weight: 12.6kg

Core drill template

Order Code: REV-TEMPLATE

- Assists with starting to core drill hole
- Stabilises the drill bit from jumping

Spirit level for core drill

Order Code: REV-LEVEL

- Screws into core drill machine
- Assists with drilling accurate holes

Splash guard/ water trap

Order Code: REV-GUARD

Base for stand

Order Code: REV-BASE

- 550mm x 550mm overall dimensions

Core drill bits

Mild steel body & diamond impregnated crown tip

8mm mini core drill bit

89mm x 450mm long
Order Code: REV-BIT-89

1
Long length supply
Buy long length extrusions then cut to size and assemble on-site or at your premises

2
Cut to size service
Simply provide gate size required – we will cut to size and flat pack for easy assembly

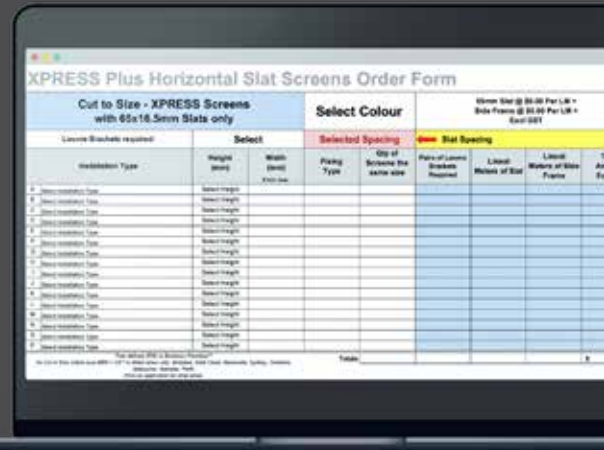

industry first, trade quality Sliding gates

AVAILABLE IN 2 CONVENIENT SUPPLY OPTIONS

Cut to size order forms for sliding gates

For cut to size orders, simply enter required height and width – our handy order form will then generate instant pricing for your order
We will then take your order, cut to size and flat pack for delivery Australia wide.

CONTACT US TO GET YOUR COPY OF THE ORDER FORMS

Sliding gate options

SELECT FROM A RANGE OF SLIDING GATE OPTIONS

We can cut to size, flat pack and send Australia wide or you can purchase long length extrusions and cut to size yourself

Assemble pre-powder coated sliding gates quickly and easily with no welding or riveting required

Save time and money without requirement of fully fabricating and welding

Contact us for detailed assembly instructions

1

Horizontal slat sliding gate

65mm x 16.5mm slats with 9mm or 20mm slat spacing

Patented 'no weld' gate side frames for fast assembly

2

Horizontal slat sliding gate

65mm x 16.5mm or 90mm x 16.5mm slats

Variable slat spacing

Each slat required to be screw fixed

3

Vertical slat sliding gate

65mm x 16.5mm or 90mm x 16.5mm slats

Variable slat spacing

Each slat required to be screw fixed

SLIDING GATE OPTIONS

Option 1

Horizontal slat sliding gate with 65mm x 16.5mm slats
9mm or 20mm slat spacing
Patented 'no weld' side frames

SEE PAGES 85-91 FOR FULL
SPECIFICATIONS ON ALL
PRODUCTS LISTED BELOW

- 1 Top rail**
Rail includes innovative side channel for slide guide or roller guide integration
Screw fix to side frames
XPSG-6100-TR
- 2 65x16.5mm slat**
Standard slats held in place with patented friction fitting gate side frame
XP-6100-S65
- 3 65mm x 16.5mm gate slat with 2x screw flutes**
Screw fluted slat at middle of gate provides extra rigidity
XP-6100-GB65
- 4 Centre support rail**
Affixes to backside of gate slats
Screw fix each slat for extra support
Snap on cover hides all screws
XP-5800-CSR
- 5 Top/bottom plate for centre support rail**
Connects centre support rail to top and bottom rail for extra rigidity
XP-BTP
- 6 Gate insert**
Snaps into gate side frame to hide screw fixings
XP-4200-GI
- 7 Gate side frames**
Machined drill holes & slots
9mm or 20mm spacing
Suits 65x16.5mm slat
XP-4200-GSF09 or XP-4200-GSF20
- 8 Gate frame screws**
12 gauge x 65mm long with flange hex head
Heavy duty screw fixing of side frame to top/bottom rail and gate blade
XP-SCREWSGF-10PK
- 9 Gate frame cap**
Presses into top of gate frames
XP-GFC
- 10 Bottom Rail**
Bottom rail features underside cavity for easy wheel recess fitting
Screw fixes to side frames
XPSG-6100-BR
- 11 Sliding gate wheel**
80mm diameter wheel with 20mm diameter groove
XPSG-WHEEL
- 12 Wheel clamping set**
Clamps gate wheel to bottom rail
XPSG-WHEEL-CS
- 13 Gate track**
Bolt down track with 20mm diameter running surface – Steel or aluminium
Consider anchor pins to secure track
XPSG-3000/6000-TRACK-ST or XPSG-6000-TRACK-AL

SLIDING GATE OPTIONS

Option 2

Horizontal slat gate with 65mm or 90mm x 16.5mm slats
Variable slat spacing including nil spacing

SEE PAGES 85-91 FOR FULL SPECIFICATIONS ON ALL PRODUCTS LISTED BELOW

- 1 Top rail**
Rail includes innovative side channel for slide guide or roller guide integration
Screw fix to side frames
XPSG-6100-TR
- 2 65x16.5mm or 90x16.5mm slat**
Slats held in place with fixing screws
XP-6100-S65 / QS-6100-S90
- 3 Centre support rail**
Affixes to backside of gate slats
Screw fix each slat for extra support
Snap on cover hides all screws
XP-5800-CSR
- 4 Top/bottom plate for centre support rail**
Connects centre support rail to top and bottom rail for extra rigidity
XP-BTP
- 5 Gate insert**
Snaps into gate side frame to hide screw fixings
XP-4200-GI

- 6 Gate side frames**
Machined drill holes
XP-4200-GSF09 or XP-4200-GSF20
- 7 Gate frame screws**
12 gauge x 65mm long with flange hex head
Heavy duty screw fixing of side frame to top/bottom rail
XP-SCREWSGF-10PK
- 8 Gate frame cap**
Presses into top of gate frames
XP-GFC
- 9 Non-punched gate infill**
Replaces slotted infill from gate side frame
XP-XBAT-4200-INF
- 10 Quickscreen side frame**
Affix to inner face of gate side frame
Insert and screw off each slat
Variable slat spacing
QS-5800-SFC

- 11 Quickscreen concealed fixing cover**
Snap-on cover to hide slat fixing screws
QS-5800-CFC
- 12 Fixing screws**
Use to affix side frames and slats
All slats must be screw fixed to side frames
XP-SCREWS
- 13 Bottom Rail**
Bottom rail features underside cavity for easy wheel recess fitting
Screw fixes to side frames
XPSG-6100-BR
- 14 Sliding gate wheel**
80mm diameter wheel with 20mm diameter groove
XPSG-WHEEL
- 15 Wheel clamping set**
Clamps gate wheel to bottom rail
XPSG-WHEEL-CS
- 16 Gate track**
Bolt down track with 20mm diameter running surface – Steel or aluminium
Consider anchor pins to secure track
XPSG-3000/6000-TRACK-ST or XPSG-6000-TRACK-AL

SLIDING GATE OPTIONS

Option 3

Vertical slat gate with 65mm or 90mm x 16.5mm slats
Variable slat spacing including nil spacing

SEE PAGES 85-91 FOR FULL SPECIFICATIONS ON ALL PRODUCTS LISTED BELOW

1 Top rail
Rail includes innovative side channel for slide guide or roller guide integration
Screw fix to side frames
XPSG-6100-TR

2 Quickscreen side frame
Affix to inner face of top/bottom rails
Insert and screw off each slat – variable spacing
QS-5800-SFC

3 Quickscreen concealed fixing cover
Snap-on cover to hide slat fixing screws
QS-5800-CFC

4 Fixing screws
Use to affix side frames and slats
All slats must be screw fixed to side frames
XP-SCREWS

5 65x16.5mm or 90x16.5mm slat
Slats held in place with fixing screws
XP-6100-S65 / QS-6100-S90

6 Gate insert
Snaps into gate side frame to hide screw fixings
XP-4200-GI

7 Gate side frames
Machined drill holes
XP-4200-GSF09 or XP-4200-GSF20

8 Gate frame screws
12 gauge x 65mm long with flange hex head
Heavy duty screw fixing of side frames to top/bottom rail
XP-SCREWSGF-10PK

9 Gate frame cap
Presses into top of gate frames
XP-GFC

10 Non-punched gate infill
Replaces slotted infill from gate side frame
XP-XBAT-4200-INF

11 U channel
Affix to vertical inner face of gate side frames. Reduces potential light gap on both vertical edges of gate
QS-5000-HORIZ

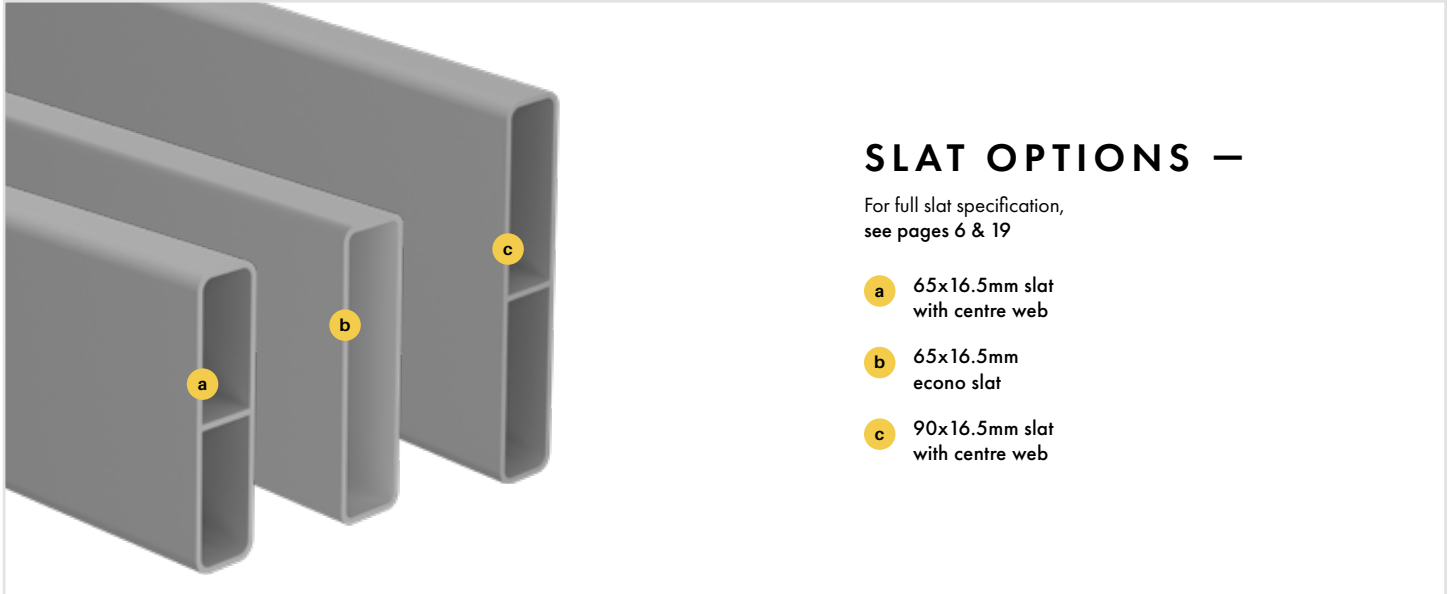

12 Bottom Rail
Bottom rail features underside cavity for easy wheel recess fitting
Screw fixes to side frames
XPSG-6100-BR

13 Sliding gate wheel
80mm diameter wheel with 20mm diameter groove
XPSG-WHEEL

14 Wheel clamping set
Clamps gate wheel to bottom rail
XPSG-WHEEL-CS

15 Gate track
Bolt down track with 20mm diameter running surface – Steel or aluminium
Consider anchor pins to secure track
XPSG-3000/6000-TRACK-ST or XPSG-6000-TRACK-AL

When calculating even spacing between vertical slats, overall gate width should be carefully considered to ensure first and last gap (between gate side frames and first/last slat) are kept uniform with other slat spacing

SLAT OPTIONS —

For full slat specification, see pages 6 & 19

- a** 65x16.5mm slat with centre web
- b** 65x16.5mm econo slat
- c** 90x16.5mm slat with centre web

Sliding gate top rail

6100MM LONG

Order Code: XPSG-6100-TR

TECH SPECS

- PP 293 / AP 367
- Alloy 6063 T5 / 6100mm long
- 2.5mm wall thickness
- Top rail with innovative side channel for slide guide or roller guide integration
- Screw flutes incorporated for non-weld assembly
- lxx = 513.99 x 10E3 mmE4
- lyy = 404.97 x 10E3 mmE4

Finishes

Sliding gate bottom rail

6100MM LONG

Order Code: XPSG-6100-BR

TECH SPECS

- PP 332 / AP 476
- Alloy 6063 T5 / 6100mm long
- 1.8mm wall top section with 2.5mm wall thickness bottom legs
- Bottom rail with underside cavity for wheel recess fitting
- Screw flutes incorporated for non-weld assembly
- lxx = 265.22 x 10E3 mmE4
- lyy = 994.41 x 10E3 mmE4

Finishes

GATE EXTRUSIONS

PATENTED FRICTION FIT SYSTEM

9MM SPACING Slotted gate side frame

4200MM LONG

Order Code: XP-4200-GSF09

Finishes

TECH SPECS

- PP 170
- Alloy 6063-T5 / 4200mm long
- 3mm wall thickness with 3.8mm centre crossmember
- Slotted insert to suit 65x16.5mm slat with 9mm spacing
- Patented frame for friction insertion of slats
- Crossmember machined with drill holes along entire length to suit screw fixing of top & bottom rail as well as centrally located 'gate' slat
- lxx = 6.294 x 10E3 mmE4
- lyy = 152.403 x 10E3 mmE4

PATENTED FRICTION FIT SYSTEM

20MM SPACING Slotted gate side frame

4200MM LONG

Order Code: XP-4200-GSF20

Finishes

TECH SPECS

- PP 170
- Alloy 6063-T5 / 4200mm long
- 3mm wall thickness with 3.8mm centre crossmember
- Slotted insert to suit 65x16.5mm slat with 20mm spacing
- Patented frame for friction insertion of slats
- Crossmember machined with drill holes along entire length to suit screw fixing of top & bottom rail as well as centrally located 'gate' slat
- lxx = 6.294 x 10E3 mmE4
- lyy = 152.403 x 10E3 mmE4

Snap-in gate insert

4200MM LONG

Order Code: XP-4200-GI

MATES WITH XP-4200-GSF09/20

Finishes

TECH SPECS

- PP 100 / AP 100
- Alloy 6060-T5 / 4200mm long
- Snap-in gate insert mates with gate side frame
- Hides screws required for fixing of top & bottom rail and 'gate' slats
- lxx = 0.86 x 10E3 mmE4
- lyy = 5.93 x 10E3 mmE4

GATE EXTRUSIONS

NON-PUNCHED Gate infill

4200MM LONG

Order Code: XP-XBAT-4200-INF

TECH SPECS

- PP 100 / AP 133
- Alloy 6060-T5 / 4200mm long
- Non-punched snap-in infill for gate side frames
- Required when making vertical slat sliding gates, variable spaced horizontal slat gates or gates using 90mm x 16.5mm slats
- Replace existing slotted infill in gate side frame with non-punched gate infill if required
- lxx = 2.94 x 10E3 mmE4
- lyy = 9.50 x 10E3 mmE4

Finishes

Quickscreen side frame

5800MM LONG

Order Code: QS-5800-SF

TECH SPECS

- PP 104 / AP 156
- Alloy 6063-T6 / 5800mm long
- Used for sliding gates with horizontal variable slat spacing and vertical slat sliding gates
- Each slat must be screw fixed to side frame
- Affix side frame to 45mm x 40mm gate frame
- lxx = 9.58 x 10E3 mmE4
- lyy = 8.38 x 10E3 mmE4

Finishes

Quickscreen concealed fixing cover

5800MM LONG

Order Code: QS-5800-CFC

MATES WITH QS-5800-SF

TECH SPECS

- PP 100 / AP 116
- Alloy 6060-T5 / 5800mm long
- Snap-on cover for Quickscreen side frame
- Hides screws used to affix slats to side frame
- lxx = 0.71 x 10E3 mmE4
- lyy = 6.58 x 10E3 mmE4

Finishes

GATE EXTRUSIONS

Heavy duty U channel

5000MM LONG

Order Code: QS-5000-HORIZ

TECH SPECS

- PP 184 / AP 184
- Alloy 6060-T5
- 5000mm long
- 2.5mm wall thickness
- Required for vertical slat sliding gates only. Use on both internal vertical sides to reduce light gaps at gate edges
- $l_{xx} = 23.97 \times 10E3 \text{ mmE4}$
- $l_{yy} = 38.92 \times 10E3 \text{ mmE4}$

Finishes

65mm x 16.5mm gate slat with centre web & 2x screw flutes

6100MM LONG

Order Code: XP-6100-GB65

TECH SPECS

- PP 158 / AP 158
- Alloy 6063-T6
- 6100mm long
- 1.5mm wall thickness with 1.2mm wall centre web
- 2x screw flutes
- Used in strategic positions for horizontal sliding gate assembly
- Non weld assembly using 12 gauge screws into screw flutes (Code: XP-SCREWSGF-10PK)
- $l_{xx} = 11.85 \times 10E3 \text{ mmE4}$
- $l_{yy} = 144.09 \times 10E3 \text{ mmE4}$

Finishes

Centre support rail

5800MM LONG

Order Code: XP-5800-CSR

OPTIONAL EXTRA

Snap-on cover hides fixings – provides slimline sturdy support rail with no visible fixings

TECH SPECS

- PP 126 / AP 188
- Alloy 6063-T5
- 5800mm long
- Screwing fix centre support rail provides support to slats used in horizontal sliding gates
- For extra rigidity, centre support rail is braced to the top & bottom rail
- $l_{xx} = 1.73 \times 10E3 \text{ mmE4}$
- $l_{yy} = 26.34 \times 10E3 \text{ mmE4}$

Finishes

GUIDE POST & EXTENSION

65x65mm steel post

2700MM LONG

Order Code: XPSG-2700-ST65

Finishes

TECH SPECS

- 65x65mm galvanised steel post
- Includes press in black cap
- 2.5mm wall thickness
- Use at gate end to affix guide rollers or slide guide
- May also be used at gate front for affixing U or F catch
- Includes press in black cap

Sliding gate extension

400MM LONG

Order Code: XPSG-MXTN-KIT

Finishes

TECH SPECS

- 400mm long bottom rail extension
- Optional extra - useful where extra length required for motor rack to be affixed to bottom rail.
- Not required for every slide gate install. Recommended only where install situation requires
- Extension piece fixes to gate side frame
- Fixing bolts and plates included in kit

Simply bolt onto bottom of gate side frame during assembly process

400mm extension easily bolts onto gate side frame

GATE ACCESSORIES

Steel sliding gate track

3000MM LONG OR
6000MM LONG

Order Codes:

XPSG-3000-TRACK-ST (3000mm)

XPSG-6000-TRACK-ST (6000mm)

- Available 3000mm or 6000mm long
- Made from 3mm galvanised steel for durability
- Bolt down sliding gate track with a $\varnothing 20$ mm running surface
- Easy to install with predrilled fixing holes (22 holes for 3000mm track and 42 holes for 6000mm track)

Aluminium sliding gate track

6000MM LONG

Order Code:

XPSG-6000-TRACK-AL (6000mm)

- Available 6000mm long
- Mill finish aluminium - 6063-T5
- Bolt down sliding gate track with a $\varnothing 20$ mm running surface
- No drill holes - drill fixing holes as needed

Sliding gate track pins

Order Code: **XPSG-ANCHOR**

- Mushroom head galvanised steel track anchor pins
- 6.5mm x 38mm
- Pre-expanded expansion anchor. Once hammered in, unique kinked shaft provides a spring action for vibration proof anchoring. Use 6.5mm masonry bit into concrete

Sliding gate wheel

Order Code: **XPSG-WHEEL**

- 80mm diameter with 20mm diameter groove
- Zinc plated steel
- Load rating 180kg
- Use with 1 x XPSG-WHEEL-CS clamping set to fix to sliding gate bottom rail
- Made in Italy

Sliding gate wheel clamping set

Order Code: **XPSG-WHEEL-CS**

- Use to clamp sliding gate wheel to bottom rail
- Aluminium M8 threaded block
- Includes 2 x zinc plated screws
- Sold as a pack of 2 (suits 1 x wheel)

Slide guide

Order Code: **XPSG-GUIDE**

- Self-adjusting slide guide attaches to sliding gate top rail
- Keeps gate in vertical position and travelling true while opening/closing
- As gate travels along track and shifts up or down, slide guide adjusts automatically. Up to 280mm vertical adjustment.
- Guide channel is anodised black with sturdy nylon block

Sliding gate guide rollers

2 PACK

Order Code: **XPSG-TOPROLL-2PK**

- Alternative to SlideGuide
- Rollers guide top rail while gate opens and closes
- Can only be used if vertical deviation of gate while travelling is 15mm or less
- White nylon rollers - made in Italy
- Kit includes 1 x left and 1 x right zinc plated steel mounting bracket (fixings not included) - 30mm hole centers

2 installation methods –

GATE ACCESSORIES

Gate U catch

Order Code: XPSG-CATCH-U

- Suits up to 50mm gate frames
- Gate catch supplied with 5 pre-drilled holes for easy installation and adjustment
- Rubber stop provided for noise reduction
- Steel zinc plated

Gate F catch

Order Code: XPSG-CATCH-F

- Suits up to 50mm gate frames
- Affix bracket to wall/post via "F" leg
- U catch attaches to F section – includes rubber stop for noise reduction
- U catch horizontally adjustable for ease of lining up to gate frame
- Steel zinc plated

Gate stop

Order Code: XPSG-STOP

- Stops the gate in the option position
- Forged steel zinc plated gate stop with nylon bumper
- Bolts to concrete at end of gate track. 4x Ø11mm fixing holes
- Made in Italy

Centre support rail top/bottom plate

Order Code: XP-BTP

- Aluminium with countersunk hole machining
- Use to brace off top and/or bottom of centre support rail to top and bottom rails
- Bracing centre support rail provides extra rigidity

MATES WITH XP-5800-CSR

Screw top/bottom plate to centre support rail

Screw through central hole to top & bottom rail

Gate frame cap

NYLON

Black / Monument / Woodland Grey / Silver / Surfmist / White

Order Code: XP-GFC

- UV stabilised nylon – 3mm thick cap
- Available in 5 colours
- Suits gate side frame
- Press-in flat cap

Finishes

PACK OF 10 Gate frame screws

12Gx65MM HEX FLANGE HEAD

Order Code: XP-SCREWSGF-10PK

- Hex flange head for easy assembly
- Use to screw horizontal top & bottom rails to vertical side frames
- Also use to screw fix 'gate' slat to side frames for horizontal slat gates with 9mm or 20mm spacing (65x16.5mm slats)

Self drilling wafer screws

10Gx16MM – BAG OF 100

Black / Monument / Woodland Grey Silver / Surfmist / White / Basalt Dune / Mill finish

Order Code: XP-SCREWS

- 10G x 16mm self drilling wafer head zinc plated
- Powder coated heads for neat finish
- Use to: (1) Screw fix centre support rail to slats (2) Screw fix & brace off centre support rail top/bottom plate to top/bottom rail (3) Screw fix slats to side frames if required (4) Attach Quickscreen side frame to outer gate frame for gate options 2 & 3 (see pages 81-84)

Sliding gate motors

LONG TERM RELIABILITY

NiceHome automation and accessories are tested every day in the Nice laboratories according to strict criteria. To ensure compliance with the strictest safety requirements on the market, NiceHome guarantees the highest possible technological and quality standards.

PROFESSIONAL QUALITY

Designed and manufactured in Italy, NiceHome automation benefits from unique Italian know-how combining top performance with an essential style to adapt perfectly to the needs of your home.

To complement horizontal slat and vertical slat sliding gates, we can supply the highest quality Italian made gate automation and accessories. NiceHome automation is a new upgrade to the well-known Mhouse range.

Filo 400 Pro Kit

Order Code: XPSG-FILO-400

- KIT INCLUDES:**
- 1x Motor
 - 2x Remotes
 - 1x Pair of Photocells (safety device which prevents the gate from closing on pedestrians or vehicles)

- Sliding gate opener suits gates up to 6000mm wide and weighing up to 400kg
- Easy to install and simple programming steps
- Flexible short power cord pre-wired to motor
- Plugs into standard power point with 10 amp flat 3 pin plug
- Includes pinion (cog) that integrates with rack on gate

Low voltage cable option

FILO 400 Pro Kit with split pack

Features external transformer

Order Code: XPSG-FILO-400PRO-SP

- Same motor and accessories as FILO 400 except transformer is separated from motor
- External transformer converts 240V mains power to low voltage 24V
- Use 2 core x 2.5mm (double insulated) electrical cable to run from transformer to motor. CABLE SOLD SEPARATELY – can be purchased from electrical wholesaler or reputable hardware store
- Motor can installed a maximum of 50 meters away from transformer
- 10 amp flat 3 pin plug
- Ideal where getting 240V mains power to gate motor is different. Simply run low voltage cable from transformer to gate motor.
- Refer www.easygate.com.au for technical assistance/manuals

- KIT INCLUDES:**
- 1x Motor
 - 2x Remotes
 - 1x Pair of Photocells (safety device which prevents the gate from closing on pedestrians or vehicles)
 - 1x External transformer in weatherproof enclosure

MOTOR ACCESSORIES

Remote control

Order Code: XPSG-FILO-REMOTE

- Optional extra remote control to replace remotes in kit if broken or more remotes required (2x remotes included as standard with each motor kit)
- 5 channel remote able to control various gate functions (eg open only, close only, partial open etc)

Wireless keypad

Order Code: XPSG-FILO-WKP

- Optional wireless keypad for gate motor opening/closing
- PIN number control access
- Easy to affix to wall or post
- Runs on 2 x CR2430 lithium batteries

Solar power kit

Order Code: XPSG-FILO-SOLAR

- Solar power system designed for use with NiceHome motors
- System uses exclusively solar power to run automation without use of electrical mains power
- Provides continuous electrical energy. Ideal for sites where mains power is unavailable
- Includes photovoltaic panel (converts solar energy into electrical energy) and electric battery (for stored power, able to operate gate night and day)
- Attention must be paid to ensure panel positioned to receive full sunshine

Backup battery

Order Code: XPSG-FILO-BATTERY

- Optional battery provides backup power in the event of mains power failure
- Gate can be cycled multiple times under battery power (no. of cycles may vary due to gate size and site conditions)
- Backup battery is recharged under mains power

Rack

Order Code: XPSG-FILO-RACK

- Tough & durable nylon rack (with steel core)
- Affix to bottom rail of sliding gate
- 1 meter long sections; 6 fixing points
- Quieter than steel racks
- Made in Italy

TECHNICAL ASSISTANCE/MANUALS AND SUPPORT VIDEOS

www.easygate.com.au

ALUMAWOOD

ALUMINIUM SCREENING • KWILA, WESTERN RED CEDAR & ISLAND GREY

INTERPON UNDERCOAT • ITALIAN IMAGE FILM

AUSTRALIA'S BEST QUALITY AT UNBEATABLE PRICES

SYSTEM ADVANTAGES

Concealed fixing: screws are hidden – clean finish!

Low maintenance – unlike timber screening

Cost effective solution

Hinged & sliding gates also available

Adjustable slat spacing

ECO FRIENDLY

Slats have commonly been made from harvested timber which must be repeatedly painted. Alumawood slats are made from aluminium – the most abundant metal in the Earth's crust and third most abundant element (after oxygen and silicon). There are no ongoing painting issues with imaged slats.

FIRE RETARDANT

Aluminium is described as non-combustible. When aluminium is exposed to a prolonged fire environment it will begin to melt (not burn) with a melting point between 600 and 660 degrees celsius. Aluminium slats are an excellent choice where fire risk requires consideration.

WEATHER & INSECT PROOF

Imaged aluminium is impervious to insects and termites plus the non-porous surface is naturally resistant to fungi, mould and mildew. It is also unaffected by exposure to sunlight and water making it ideal for batten/screening solutions.

LIGHT WEIGHT

Aluminium weighs approximately one third of a piece of steel that is the same size and shape. Alumawood is made by extruding aluminium which allows for optimisation of shape to maximise strength and reduce weight.

COLOUR STABILITY

Alumawood features genuine Interpon basecoat with Italian film for a long lasting finish.

Woodgrain effect imaged aluminium has a durable base coat applied followed by a technically advanced film which is transferred onto the base coat under heat & pressure. The transfer cannot rub or peel off. The sophisticated process is called sublimation.

RUST PROOF

Aluminium does not rust. Alumawood may be enjoyed for the long term with minimal maintenance and no worry of rusting.

Aluminium is produced to chemical composition, mechanical property and dimensional tolerances in AS/NZS 1866:1997.

- AS/NZS ISO 9001:2008 – Quality Management Systems
- AS/NZS ISO 14001:2004 – Environmental Management Systems
- AS/IEC 17025-NATA – NATA Accredited Mechanical Testing Laboratory

& RIGIDITY TO SLAT

ALUMAWOOD SCREENING EXTRUSIONS

The Alumawood system is extremely cost effective. Each slat is screwed off once in position. The system allows for variable slat spacing so any gap is achievable. Once slats are screwed off, a snap on cover hides the fixings to provide a seamless finish.

For horizontal slat screening, generally the side frame is screwed directly to a post or wall without need of another U channel or angle.

In 'void' situations where slats cannot be fed in from top down, an F section is available. The F section can also be used where it is preferred to pre-make complete panels in a factory and simply install onsite.

For raking panels/angles, slats can be cut at an angle and screwed off making Alumawood an ideal solution for difficult installations.

Vertical slat screening is also easily achievable with Alumawood extrusions.

Available in long length supply or custom made to size ready for assembly.

Finishes

TECH SPECS

- Alloy 6063 - T6
- 1.8mm wall thickness with 3mm ribs
- Screw flutes to screw on base plate if required
- Press-in aluminium powder coated top plate included with 2400mm posts
- lxx = 170.44 x 10E3 mmE4
- lyy = 170.44 x 10E3 mmE4

4x screw flutes in post allow tight fit of press in flat aluminium top plate.

Optional base plate can be attached using screw flutes for base plated post installations.

50x50mm post flat top plate

POWDER COATED ALUMINIUM

Order Code: **AW-TP-TR / XP-TP-MN**

- Alloy ADC12 aluminium plate
- Powder coated to compliment image finish
- Press into post screw flutes for secure fixing
- Suits 50 x 50mm post
- 2400mm posts come with free top plate included - only purchase if extra top plates are required
- Top plates required for 5800mm/ 6000mm posts - sold separately

Powder coat colour

50x50mm post dress ring

POWDER COATED ALUMINIUM

Order Code: **AW-DR-TR / XP-DR-MN**

- Suits 50x50mm core drill posts
- Terrain powder coat suits both Kwila & WRC image finishes
- 100mm x 100mm outer - 52mm x 52mm inner

Powder coat colour

50x50mm post base plate set

POWDER COATED ALUMINIUM

Order Code: **AW-BP-SET-TR**
XP-BP-SET-MN

- Simply screw base plate onto core drill post
- 4x 12G x 50mm long CSK screws included in set

Powder coat colour

Discreet screws fix two parts of cover together

Powder coat colour

Two part domical cover

POWDER COATED ALUMINIUM

Order Code: **AW-DC-2P-TR**
XP-DC-2P-MN

- Suits 50x50mm post with screw fixed base plate
- Terrain powder coat matches well with Kwila & WRC image finish
- 106x106mm outer - 52x52mm inner - Alloy ADC12
- 29.5mm high
- Cover can be fitted to posts after fence is installed with innovative 2 piece design

POSTS & ACCESSORIES

65x65mm heavy duty post

2400MM, 5800MM or 6000MM LONG

Powder coat colour

65x65mm post dress ring

POWDER COATED ALUMINIUM
Order Code: **AW-65DR-TR / XP-65DR-MN**

- Suits 65x65mm heavy duty post
- Terrain powder coat suits both Kwila & WRC image finishes
- 115mm x 115mm outer - 67mm x 67mm inner

Powder coat colour

65x65mm two part domical cover

POWDER COATED ALUMINIUM
Order Code: **AW-65DC-2P-TR**
XP-65DC-2P-MN

- Suits 65x65mm post with screw fixed base plate
- 122x106mm outer - 67x67mm inner - Alloy ADC12
- 30mm high
- Cover can be fitted to posts after fence is installed

Powder coat colour

ACCESSORIES

Timber fixing kit

4 PACK – SS316
Order Code: S-110LAG-4PK

- M10 x 110mm timber lag screws x4 with nuts and washers
- Suits fixing holes in both the 50x50mm and 65x65mm base plate sets

Concrete fixing kit

4 PACK – SS316
Order Code: S-120ROD-4PK

- M10 x 120mm concrete threaded rods x4 with nuts and washers
- Suits fixing holes in both the 50x50mm and 65x65mm base plate sets

Screw & spacer kit

SCREWS & SPACER BLOCKS
Order Code: QS-KIT

- 50 screws: 10G x 18mm long
- 10x spacer blocks
- Spacers enable 9mm, 15mm or 20mm spacing between slats
- Use screws to fix off slats
- Remove spacers once slats are screw fixed off

Louvre brackets

1x LEFT & 1x RIGHT
Terrain

Order Code: AW-LB-TR / QS-LV-MN

- 1x left and 1x right bracket per pack
- Terrain powder matches well with Kwila & WRC image finishes
- Monument powder coat matches well with Island Grey
- Die cast aluminium
- Suits 65x16.5mm slat - Press brackets onto end of slat then insert bracket into side frame
- Space brackets at nil, 5, 9, 20mm or any spacing desired
- Cost effective and fast way to achieve a fixed louvre finish

MONUMENT (MN)
For Island Grey

40° FINAL SLAT ANGLE

Side frame mounting arm

200MM or 400MM WIDE

Black / Monument / Woodland Grey
Silver / Surfmist / Mill finish

Order Code: XP-ARMSF (200mm wide)

XP-ARMSF-400-M (400mm wide – Mill finish)

- Use for mounting screens offset from a vertical surface
- 2x welded fixing plates - 100mm L x 26mm W x 10mm D
- 2x Ø9mm fixing holes (plate 1) & 2x 7mm fixing holes (plate 2)

100mm support foot

HEIGHT ADJUSTABLE
SS316 / POLISH FINISH

Order Code: XP-FOOT-ADJ

- Height adjustable support foot for wider or larger screens
- Screw fix to midpoint of underside of bottom rail U channel
- Easily height adjustable (from 25mm up to 100mm) - stainless steel stem can be cut down and bottom flange reattached with grub screw
- Stylish high polish marine grade SS316 finish

Remove stem from base plate and cut to required length

ACCESSORIES

65MM SLAT CAPS

Suits 65x16.5mm slats
Order Code: AW-EC65-TR-4PK
XP-EC65-MN-4PK

Powder coat colour

TECH SPECS

- Alloy ADC12 aluminium flat end cap
- Suits our 65x16.5mm slat
- Terrain powder coat finish suits Kwila & WRC slats
- Monument powder coat finish matches well with Island Grey slats
- Press into end of slat
- Innovative design feature with polymer inserts ensures tight press in fit (inserts supplied with every cap)
- Internally slotted so end cap can be used with webbed or non-webbed slats

90MM SLAT CAPS

Suits 90x16mm WRC slats only
Order Code: AW-EC90-TR-4PK

Powder coat colour

TECH SPECS

- Alloy ADC12 aluminium flat end cap
- Suits our 90x16mm slat
- Terrain powder coat finish suits WRC slats
- Press into end of slat
- Innovative design feature with polymer inserts ensures tight press in fit (inserts supplied with every cap)
- Internally slotted so end cap can be used with webbed or non-webbed slats
- Sold as a 4 pack

DESIGN INNOVATION

Tapered polymer insert can be installed one or both sides of cap.
Use inserts if cap not a tight fit in slat.

Rapid set concrete

20KG BAG
Order Code: GROUT-RSC

- Specially formulated to harden rapidly
- Not available Perth depot - Use 20kg Kwik Set concrete (Code: GROUT-KWIKSET)

Kwikset concrete
Perth only

Concrete mix

20KG BAG
Order Code: GROUT-CONCRETE

- Quality blend of GP cement, aggregate & sand - just add water
- Ideal for high strength concreting of posts

Sika HES grout

20KG BAG
Order Code: GROUT-SIKA

- Non shrink structural grout
- Ready mixed, high quality grout
- Sets with high early strength

Bostik HES grout

20KG BAG
Order Code: GROUT-BOS

- Non shrink structural grout
- High performance, high early strength

Self drilling tek screws

12Gx20mm – BAG OF 100

**Black, Woodland Grey, Monument,
Primrose, Paperbark, Silver, Surfmist
& White**

Order Code: SS-TS-100

- Self drilling tek screw featuring integrated thread and drill/cutting tip
- 12G x 20mm tek screw with hex head
- Packed in convenient bags of 100 screws

Soudal CA1400 Chemical anchor

280mL

Order Code: SOUD-CA1400

- High performance, two-component chemical anchoring resin for the pressure-free securing of anchoring rods, studs, threaded collars etc
- Fast cure
- Vinyl ester styrene free
- Can be used in damp concrete
- Apply with standard caulking gun

Self drilling wafer screws

10Gx16mm – BAG OF 100

**Black / Monument / Woodland Grey /
Mill finish**

Order Code: XP-SCREWS

- Bags of 100 – 10G x 16mm self drilling wafer head zinc plated
- Powder coated heads for neat finish
- Ideal for fixing top/bottom frame to F section
- Can also be used for fixing slats to top/bottom frame with vertical slat screening

Post plugs – 4 pack

Black finish

Order Code: SS-POSTPLUG-4PK

- Ø32mm outer top suits 25mm hole
- Suits post wall thickness 1.5mm – 3.2mm
- Cap holes in posts when fixing posts to structures

** Monument powder coat finish to compliment Island Grey

6 VOID SITUATIONS

F section required prior to site install

HORIZONTAL SLAT INSTALL GUIDE

1

Take measurement between walls or posts at 3 points: top, middle and bottom (Take note of the smallest measurement)

2

Cut side frames 3mm less than desired height (3mm allows for the top cap)

Affix side frames to wall or post with appropriate fixings

3

Cut aluminium slats 12mm less than total width of opening (Refer to measurement in step 1)

The 12mm deduction takes into account thickness of side frame on both sides of the screen and head of fixings.

Ensure fixings holding side frame do not obstruct slats when dropping in. If so, you may need to trim slats further.

4

Drop in aluminium slats

Tip: Ensure bottom slat is level and screw off at both sides

Optional spacer blocks can be rotated to achieve a 9, 15 or 20mm slat gap. Any gap can be achieved by leaving a desired space. Consider using timber block spacers to achieve other gaps.

5

Screw off each slat as it is dropped in (ensuring each slat is level)

If spacer blocks used, remove after each level is installed.

6

Cut snap on fixing cover to appropriate height

Attach snap on fixing cover to hide screws

Tip: If screen is wider than 1800mm, it is recommended to attach the centre support rail vertically at the centre of the screen. Cut centre support rail to appropriate height of screen and screw off to each slat at back side of screen

7

Screen is now complete!

Snap on fixing cover install tip

Engage shorter leg of snap-on cover first.

At this point, the snap-on cover will be sitting off the side frame on an angle.

The longer leg must be at open side of side frame.

Starting from the top and working your way down, use a wood block and a hammer/mallet to tap the longer leg into place.

A short, sharp tap may be required to engage the long leg.

HORIZONTAL SLAT INSTALL GUIDE

Cut to size slat screening

In addition to long length supply, we also offer a 'cut to size' program for panels & gates. Simply provide your panel or gate measurements (width & height) and we cut everything to size & flat pack for fast and easy assembly onsite or at your premises. Australia wide delivery available.

With scale of production, pricing on offer is unbeatable.

Huge cost savings

- Transparent pricing charged by lineal metre of slat and side frame used
- No wastage costs to you as only charged for exact metres of slat/side frame used
- Fast turnaround
- Save labour costs by not having to fabricate
- Pedestrian gates available: Non-weld & cut to size

A huge range of choices

- Choose between Xpressscreen, Quickscreen & Alumawood side frames (same slats used for both side frame options)
- Available in pre-powdercoated, timber imaged or mill finish
- Select from Monument, Woodland Grey, Surfist, Satin Black, Palladium Silver, Basalt, Dune, Primrose & Paperbark powder coat or Mill finish. Timber imaged aluminium also available
- Pedestrian gates also available

Delivery Australia wide

Easy transport around Australia being flat packed

Easy ordering process

We've made it simple with an easy to use excel order form.

Simply insert widths and height of panels or gates into the order form and the exact lineal meters of slat and side frame is given along with the price.

Contact us and we can email you a copy.

65mm slat spacing table

QUICKSCREEN HORIZONTAL SLAT SYSTEM

Slat Qty

Total number of slats required for height shown in corresponding rows

Slat spacing

Height of gap between each slat

Height

The Alumawood side frames allow for variable gap spacing as each slat is fixed off at desired position. Any gap is achievable. Shown are specifications for the popular spacings of nil, 5mm, 9mm & 20mm spacing.

The formula to calculate variable gap screen height is:
 $((65\text{mm (slat height)} + \text{desired gap}) \times \text{number of slats}) - \text{desired gap} + 3\text{mm}$
 (for top cap).

For example, a 30mm desired gap with 14 slats: $(65 + 30) \times 14 - 30 + 3 = 1303\text{mm}$ high

Slat Qty	Slat spacing	Height

90mm slat spacing table

QUICKSCREEN HORIZONTAL SLAT SYSTEM

Slat Qty

Total number of slats required for height shown in corresponding rows

Slat spacing

Height of gap between each slat

Height

The Alumawood side frames allow for variable gap spacing as each slat is fixed off at desired position. Any gap is achievable. Shown are specifications for the popular spacings of nil, 5mm, 9mm & 20mm spacing.

The formula to calculate variable gap screen height is:

$((90\text{mm (slat height)} + \text{desired gap}) \times \text{number of slats}) - \text{desired gap} + 3\text{mm}$ (for top cap).

For example, a 30mm desired gap with 14 slats: $(90 + 30) \times 14 - 30 + 3 = 1653\text{mm}$ high

Slat Qty	Slat spacing	Height	Slat Qty	Slat spacing	Height

VERTICAL SLAT SYSTEM

The Alumawood System allows 65x16.5mm or 90x16mm slats to be installed using a cost effective top/bottom rail system. Each slat requires screwing off at top and bottom. Screws are hidden by a heavy duty "U" section at top and bottom. An "F" section is installed vertically on both sides which allows easy installation between posts or pillars. A complete system is available – panels, pedestrian gates and sliding gates.

Ideal for installations between pillars and existing posts!

ASSEMBLE ON-SITE OR IN YOUR WORKSHOP –

Panels fit into F section on both sides for easy installation. Problems with out of square pillars or posts can be easily overcome with F section fitting.

For
Island Grey

- 1 **F section**
AWQS-5800-F
Refer page 99

- 2 **U channel top/bottom channel**
AWQS-5000-HORIZ
Refer page 100

- 3 **Top/bottom frame**
AWQS-5800-SF
Refer page 99

- 4 **65x16.5mm or 90x16mm slat**
65mm: AW-5800-S65
90mm: AWQS-5800-S90-WRC*
*WRC finish only
Refer page 97

POSTS & ACCESSORIES –

- 1 50x50mm post
- 2 65x65mm heavy duty post
- 3 Top caps
- 4 Dress rings
- 5 Domical covers
- 6 Base plates

For full range of posts & accessories, see pages 101 & 102
** Monument powder coat finish to compliment Island Grey

VERTICAL SLAT INSTALL GUIDE

- 1 Place first slat on padded bearers, then place the top and bottom frames onto the slat.

- 2 Position front edge of slat required distance from the edge of the top and bottom frame and screw through frame to affix at both end of the slat with 1x screw per end.

- 3 Slide remaining slats into the top and bottom frame and attach with single screw through top and bottom frames to affix, then check measure diagonals. Double screw fix first and last slats. **Keep slat spacing in mind!**

- 4 Place U channel over top and bottom frame, pre-drill 3mm holes and screw off in three points on top and bottom of the U channel – Measure in 50mm from the left and right edges, then one in the centre. **Ensure sufficient pilot holes are drilled before affixing, making sure they won't hit other screws.**

For panels over 1800mm wide, we suggest using a height adjustable foot underneath screen to prevent sagging of panel. Pre-drill 3mm holes and affix with screws. If using the height adjustable foot there is no need for a screw in the middle of the bottom rail.

- 5 Place F section over each side of panel – F section will stay in place without screws until the last step.

- 6 Lift panel into opening and push F section out to sit flush to wall then affix F section to wall (fixings not included). **Ensure sufficient pilot holes are drilled before affixing.**

- 6 Affix panel to F section by pre-drilling 3mm holes and screwing through F section in corner positions – we suggest using 2 screws in each corner

innovative, non-weld Pedestrian gates

AVAILABLE IN 2 CONVENIENT SUPPLY OPTIONS

1

Long length supply

Buy long length extrusions then cut to size and assemble on-site or at your premises

2

Cut to size service

Simply provide gate size required – we will cut to size and flat pack for easy assembly

Pedestrian gate options

SELECT FROM A RANGE OF PEDESTRIAN GATE OPTIONS

We can cut to size, flat pack and send Australia wide or you can purchase long length extrusions and cut to size yourself.

Assemble pre-powder coated gates with no welding or riveting required.

Contact us for detailed assembly instructions

1 Horizontal slat pedestrian gate

Fitted with D&D LOKK Latch Deluxe

65mm x 16.5mm slats with 9mm or 20mm slat spacing

Patented gate side frames for fast assembly

Slats and side frames in Kwila or WRC imaged

2 Horizontal slat pedestrian gate

Fitted with D&D LOKK Latch Deluxe

65mm x 16.5mm or 90mm x 16mm slats

Variable slat spacing

Each slat required to be screw fixed

Slats and side frames in Kwila or WRC imaged

*WRC finish only for 90x16mm slat

3 Horizontal slat pedestrian gate

Fitted with Lockwood 001 deadlatch

65mm x 16.5mm slats with 9mm or 20mm slat spacing

Patented gate side frames for fast assembly

Slats and side frames in Kwila or WRC imaged

Patented non-weld lockbox*

*Lockbox powder coated Terrain

4 Horizontal slat pedestrian gate

Fitted with knob or lever handle

65mm x 16.5mm slats with 9mm or 20mm slat spacing

Patented gate side frames for fast assembly

Patented non-weld lockbox

Slats Kwila or WRC imaged. Frames & lockbox available in black, monument or woodland grey powdercoat

5 Vertical slat pedestrian gate

Fitted with D&D LOKK Latch Deluxe

65mm x 16.5mm or 90mm x 16mm slats

Variable slat spacing

Each slat required to be screw fixed

Slats and side frames in Kwila or WRC* imaged

*WRC finish only for 90x16mm slat

PEDESTRIAN GATE OPTIONS

Option 1

Slats & frames imaged aluminium

Horizontal slat gate with 65mm x 16.5mm slats
9mm or 20mm slat spacing
Fitted with the D&D Lokk Latch Deluxe

SEE PAGES 121 - 126 FOR FULL SPECIFICATIONS ON ALL PRODUCTS LISTED BELOW

- 1 **Patented non-weld gate side frames**
Machined drill holes & slots – 9mm or 20mm spacing
Suits 65x16.5mm slat
AWXP-4200-GSF09 or AWXP-4200-GSF20
- 2 **Gate insert**
Snaps into gate side frame to hide gate slat fixing screws
AWXP-4200-GI
- 3 **Gate frame cap**
Simply press into top of gate frames
XP-GFC
- 4 **Gate frame screws**
12 gauge x 65mm long with flange hex head
XP-SCREWSGF-10PK
- 5 **Gate hinges**
A range of hinging options available
See pages 64-68 for hinge options
- 6 **65mm x 16.5mm gate slat w/ 2x screw flutes**
Screw fluted slats at top/middle/bottom of gate
AW-5800-GB65
- 7 **65x16.5mm slat**
Standard slats held in place with patented friction fitting gate side frame
AW-5800-S65
- 8 **Lokk Latch Deluxe**
Manufactured by D&D Technologies
Lockable both sides
LL-DL | See page 69

! INFORMATION BELOW RELATES TO OPTION 1 ONLY

GATE CONFIGURATIONS 'Gate slat' positioning in conjunction with width & height specifications

Up to 1000mm wide

Gate blades:

- 2x top
- 1x middle
- 1x bottom

From 1001mm to 1200mm wide

Gate blades:

- 2x top
- 1x middle
- 2x bottom

PEDESTRIAN GATE OPTIONS

Option 2

Slats & frames imaged aluminium

Horizontal slat gate with 65mm or 90mm x 16mm slats
Variable slat spacing including nil spacing
Fitted with the D&D Lokk Latch Deluxe
Maximum 1200mm wide

SEE PAGES 121 -126 FOR FULL SPECIFICATIONS ON ALL PRODUCTS LISTED BELOW

1 Patented non-weld gate side frames

Machined drill holes
AWXP-4200-GSF20

2 Gate insert

Snaps into gate side frame to hide required fixing screws
AWXP-4200-GI

3 Gate frame cap

Simply press into top of gate frames
XP-GFC

4 Gate frame screws

12 gauge x 65mm long with flange hex head
Use to fix off heavy duty top/bottom rail
XP-SCREWSGF-10PK

5 Gate hinges

A range of hinging options available
See pages 64-68 for hinge options

6 Non-punched gate infill

Replaces slotted infill from gate side frame
XP-XBAT-4200-INF

7 Quickscreen sideframe

Affix to inner face of gate side frame
Insert and screw off each slat – variable spacing
AWQS-5800-SF

8 Quickscreen concealed fixing cover

Snap-on cover to hide slat fixing screws
AWQS-5800-CFC

9 Fixing screws

Use to affix Quickscreen side frames and slats
All slats must be screw fixed to side frames
XP-SCREWS

10 65x16.5mm or 90x16mm slat

Slats held in place with fixing screws
AW-5800-S65 / AWQS-5800-S90 *

* 90x16.5mm slat in WRC only

11 65x45mm heavy duty rail

Position at top & bottom of gate
XP-6100-HD6545

12 Lokk Latch Deluxe w/ packer

Manufactured by D&D Technologies
Lockable both sides
LL-DL | See page 69

! INFORMATION BELOW RELATES TO OPTION 1 ONLY

From 1201 mm to 1500mm wide

Gate blades:

- 3x top
- 1x middle
- 2x bottom

From 1501 mm to 2100mm wide

Gate blades:

- 1x 2nd slat down
- 1x middle
- 1x ¾ down

Top & bottom rail:

- 1x HD top rail
- 1x HD bottom rail

Brace:

- 1x centre support rail (Diagonal)

PEDESTRIAN GATE OPTIONS

Option 3

Horizontal slat gate with 65mm x 16.5mm slats
9mm or 20mm slat spacing
Fitted with the Lockwood 001 deadlatch
*Inwards swinging only

SEE PAGES 121 - 126 FOR FULL SPECIFICATIONS ON ALL PRODUCTS LISTED BELOW

Manufactured by D&D Technologies
Lockable both sides
LL-DL | See page 69

When calculating even spacing between vertical slats, overall gate width should be carefully considered to ensure first and last gap (between gate side frames and first/last slat) are kept uniform with other slat spacing

- PP 219 / AP 219
- Alloy 6063-T5 / 5800mm long for WRC & Kwila finish
- Alloy 6063-T5 / 6100mm long for Monument finish
- 3mm wall thickness
- Heavy duty top/bottom rail used for wide gates
- Also required for vertical slat gates, horizontal gates with variable spacing or gates fitted with a lockbox
- Non weld assembly using 12 gauge screws into screw flutes (Code: XP-SCREWSGF-10PK)
- lxx = 206.98 x 10E3 mmE4
- lyy = 427.32 x 10E3 mmE4

TECH SPECS

- PP 184 / AP 184
- Alloy 6060-T5
- 5000mm long
- Required for vertical slat pedestrian gates only. Use on both internal vertical sides to reduce light gaps at gate edges
- 2.5mm wall thickness
- lxx = 23.97 x 10E3 mmE4
- lyy = 38.92 x 10E3 mmE4

GATE KITS FOR LEVER/KNOB SETS

9mm gate lockbox kit

SUITABLE FOR LEVER/KNOB LOCK SET

Order Code: **XP-GKIT-LSET09**

- Gate side frame kit is specifically machined to suit horizontal pedestrian gate with lockbox and KNOB/LEVER set
- Patented non-weld assembly system: Use pre-powder coated aluminium lockbox (Code: XP-LBOX-LSET)
- Suits 65x16mm slats with **9mm spacing**
- Lockbox and lever/knob handle sold separately

Finish – powder coat

KIT INCLUSIONS

- a. 2 x 2094mm long Gate Side Frame slotted with 9mm space (1pc has extra machining for lock set)
- b. 2 x 2094mm long Gate Inserts
- c. 1 x 2200mm long Right hand machined Gate Stop
- d. 1 x 2200mm long Left hand machined Gate Stop
- e. 1 x 2200mm long non-machined Gate Stop (for hinge side)
- f. 2 x 2250mm long Gate Stop Rubber
- g. 2 x Gate Frame Cap - Black nylon
- h. 1 x 10 pack Wafer head 10-16 x 16mm screws (for affixing gate stop)

CONTEMPORARY LOOK
TIMBER IMAGE SLATS WITH POWDER COATED SIDE FRAME

20mm gate lockbox kit

SUITABLE FOR LEVER/KNOB LOCK SET

Order Code: **XP-GKIT-LSET20**

- Gate side frame kit is specifically machined to suit horizontal pedestrian gate with lockbox and KNOB/LEVER set
- Patented non-weld assembly system: Use pre-powder coated aluminium lockbox (Code: XP-LBOX-LSET)
- Suits 65x16mm slats with **20mm spacing**
- Lockbox and lever/knob handle sold separately

Finish – powder coat

KIT INCLUSIONS

- a. 2 x 2094mm long Gate Side Frame slotted with 20mm space (1pc has extra machining for lock set)
- b. 2 x 2094mm long Gate Inserts
- c. 1 x 2200mm long Right hand machined Gate Stop
- d. 1 x 2200mm long Left hand machined Gate Stop
- e. 1 x 2200mm long non-machined Gate Stop (for hinge side)
- f. 2 x 2250mm long Gate Stop Rubber
- g. 2 x Gate Frame Cap - Black nylon
- h. 1 x 10 pack Wafer head 10-16 x 16mm screws (for affixing gate stop)

CONTEMPORARY LOOK
TIMBER IMAGE SLATS WITH POWDER COATED SIDE FRAME

GATE ACCESSORIES

Deadlatch lockbox

ALUMINIUM
Terrain

Order Code: **AW-LBOX-DL-TR**

- Patented non-weld lockbox
- Terrain powdercoat matches well with Kwila & WRC
- Suits horizontal slat gates with 65x16.5mm slats
- Must use with gate side frame (AWXP-4200-GSF09/20)
- Screw fix assembly of pre-powder coated lockbox and extrusion
- Suits Lockwood 001 deadlatch (XP-DL001)

Lever/knob lockbox

ALUMINIUM
Black, Monument or Woodland Grey

Order Code: **XP-LBOX-LSET-B/MN/G**

- Patented non-weld lockbox
- Powder coated black, monument or woodland grey
- Suits horizontal slat gates with 65x16.5mm slats
- Must use with gate kits (XP-GKIT-LSET09/20)
- Screw fix assembly of pre-powder coated lockbox and extrusion
- Suits knob or lever sets (Stanley or Lockwood models)

Lockwood round knob set

HIGH PURITY ZINC ALLOY

Order Code: **XP-HDL-LW534**

- Lockwood model 534
- Knob set keyed both sides
- Lock / unlock both sides
- Suits left or right gate opening
- Satin Chrome brushed finish
- C4 5 pin on outside
- C4 6 pin restricted compatible on inside

Lockwood 001 deadlatch

12Gx65MM HEX
FLANGE HEAD

Order Code: **XP-DL001**

- Lockwood 001 deadlatch to suit metal frames
- Market leading performance & reliability
- Only suits inwards swinging gate
- Cut-resistant stainless steel bolt

Stanley round knob set

STAINLESS STEEL

Order Code: **XP-HDL-KNOB**

- Knob set keyed both sides
- Lock / unlock both sides
- Suits left or right gate opening
- Stainless steel knob and rose
- C4 6 pin restricted compatible (inside & outside)

Stanley lever set

STAINLESS STEEL

Order Code: **XP-HDL-LEVER**

- Lever set keyed both sides
- Lock / unlock both sides
- Suits left or right gate opening
- Stainless steel knob and rose
- C4 6 pin restricted compatible (inside & outside)

Electric Striker

Order Code: **XP-HDL-ES**

- Optional electric striker kit
- Left or right handing
- Power required to lock/unlock
- 12 volt (DC current)
- LATCHING POST - face mount SS304 striker face plate with built in side keeper
- Requirement to notch latching post to recess electric striker mechanism
- Allow 9mm latching gap
- Compatible with locks: XP-HDL-LW534
XP-HDL-KNOB

GATE ACCESSORIES

Gate frame cap

NYLON

Black / Monument

Order Code: **XP-GFC-B**

- UV stabilised nylon – 3mm thick cap
- Available in 5 colours
- Suits gate side frame
- Press-in flat cap

BLACK
(B)

MONUMENT
(MN)
For Island Grey

Self drilling wafer screws

10Gx16MM – BAG OF 100

Black, Monument

Order Code: **XP-SCREWS-B/MN**

- 10G x 16mm self drilling wafer head zinc plated
- Powder coated heads for neat finish
- Use to screw fix slats to Quickscreen side frame or to affix centre support rail to slats

Countersunk blind rivet

4.0x8.4

Order Code: **XP-GATESTOP-RIV-10PK**

- Countersunk aluminium rivet – 10 pack
- Use for affixing gate stop to post when using a lockbox with Lockwood 001 deadlatch – due to 3mm gap requirement between gate side frame and post rivets are required (as screw heads may interfere)

Nylon packer

USE WITH D&D

LOKK LATCH DELUXE

Order Code: **XP-PACKER**

- UV stabilised nylon
- Must be used when installing a D&D Lokk Latch Deluxe
- Packer aligns Lokk Latch Deluxe with gate side frame
- Affixes to inner face of gate side frame positioned under Lokk Latch striker

Gate stop rubber

4300MM LONG

Order Code: **XP-GATESTOP-RUB**

- Used as bumper for gate stop (mates with XP-4200-GSTOP)
- Rubber feeds into cavity in gate stop extrusion
- Cut to required length

PACK OF 10

Gate frame screws

12Gx65MM HEX FLANGE HEAD

Order Code: **XP-SCREWSGF-10PK**

- Use to secure gate slats to gate side frame through pre-machined holes in gate side frames
- Hex flange head for easy assembly

GATE ASSEMBLY: SIMPLE OVERVIEW

GATE OPTIONS 1, 3 & 4

- 1 On a flat protected surface, lay 1x gate side frame with slotted spacer infill and rest against a padded stop and top slats and gate blades into place

- 2 Elevate slats and gate side frame on two padded bearers. Engage second gate side frame to slats and top frame until all slats are fully engaged
TIP: Start at one end and work slats in from one end to the other

- 3 Screw off gate blades at required positions. Ensure gate is square by measuring diagonals

- 4 Slide 2x outer infills down into position to hide screw heads

- 5 Slide 2x outer infills past end of gate side frame (approx. 10mm), then using pliers, bend inner legs of outer infill slightly outwards. Tap outer infill back to level with gate side frame
TIP: This step stops the outer infill from sliding down prior to hardware installation

- 6 Insert top caps into side frames

To determine the actual slat width for your gate, make a deduction of 36mm to the overall gate width (outer edge to outer edge of gate side frame)

FORMULA FOR SLAT WIDTH:
OVERALL GATE WIDTH – 36MM

You need to allow for hinge and latch gaps
Check hinge and latch hardware specifications for gaps required and take this information into account when determining overall gate width

Contact us for further installation instructions when using lockboxes etc.

GATE ASSEMBLY

GATES WIDER THAN 1500MM

- 1 When the gate is wider than 1500mm, 2x heavy duty top/bottom rails are used in place of the top and bottom gate blades (Additional gate blades are still required as per page 117).

- 2 Once top/bottom rails and all slats are installed, ensure gate is square. The slimline brace must be measured and cut with an aluminium drop saw to run diagonally across the back face of the gate. Secure each slat using XP-SCREWS.

IMPORTANT:

Ensure the slimline brace is installed running from the 'bottom' hinge side corner to the top 'latch' side corner

SUGGESTED HINGE FIXING METHOD USING 65MM M8 BOLTS, SPRING WASHERS & NUTS FOR GATES 1500MM AND UNDER

*Hinge fixings not supplied

A complete range of hinges, latches & accessories

1
Long length supply

Buy long length extrusions then cut to size and assemble on-site or at your premises

2
Cut to size service

Simply provide gate size required – we will cut to size and flat pack for easy assembly

industry first, trade quality Sliding gates

AVAILABLE IN 2 CONVENIENT SUPPLY OPTIONS

Cut to size order forms for sliding gates

For cut to size orders, simply enter required height and width – our handy order form will then generate instant pricing for your order

We will then take your order, cut to size and flat pack for delivery Australia wide.

CONTACT US TO GET YOUR COPY OF THE ORDER FORMS

Sliding gate options

SELECT FROM A RANGE OF SLIDING GATE OPTIONS

We can cut to size, flat pack and send Australia wide or you can purchase long length extrusions and cut to size yourself

Assemble pre-powder coated sliding gates quickly and easily with no welding or riveting required

Save time and money without requirement of fully fabricating and welding

Contact us for detailed assembly instructions

1

Horizontal slat sliding gate

65mm x 16.5mm slats with 9mm or 20mm slat spacing

Patented 'no weld' gate side frames for fast assembly

Slats & frame imaged WRC or Kwila. Monument frame for Island Grey.

2

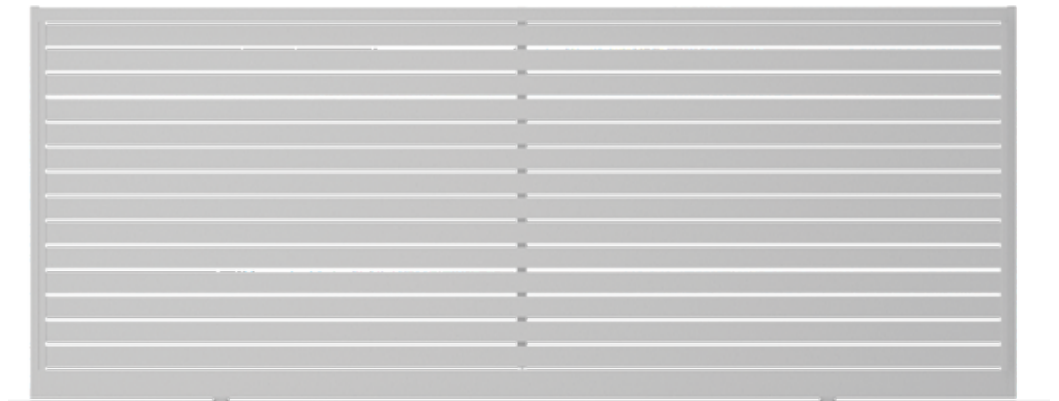

Horizontal slat sliding gate

65mm x 16.5mm or 90mm x 16mm slats

Variable slat spacing

Each slat required to be screw fixed

Slats & frame imaged WRC or Kwila. Island Grey slats with Monument powder coat framing.

***WRC only available in 90x16mm slat**

3

Vertical slat sliding gate

65mm x 16.5mm or 90mm x 16mm slats

Variable slat spacing

Each slat required to be screw fixed

Slats & frame imaged WRC or Kwila. Island Grey slats with Monument powder coat framing.

***WRC only available in 90x16mm slat**

SLIDING GATE OPTIONS

Heavy duty screw fixing of side frames to top/bottom rail
XP-SCREWSGF-10PK

9 Gate frame cap
Presses into top of gate frames
XP-GFC-B

10 Non-punched gate infill
Replaces slotted infill from gate side frame
XP-XBAT-4200-INF

11 U channel
Affix to vertical inner face of gate side frames. Reduces potential light gap on both vertical edges of gate
AWQS-5000-HORIZ

12 Bottom Rail
Bottom rail features underside cavity for easy wheel recess fitting
Screw fixes to side frames
AWSG-5800-BR

13 Sliding gate wheel
80mm diameter wheel with 20mm diameter groove
XPSG-WHEEL

14 Wheel clamping set
Clamps gate wheel to bottom rail
XPSG-WHEEL-CS

15 Gate track
Bolt down track with 20mm diameter running surface – Steel or aluminium
Consider anchor pins to secure track
XPSG-3000/6000-TRACK-ST or XPSG-6000-TRACK-AL

When calculating even spacing between vertical slats, overall gate width should be carefully considered to ensure first and last gap (between gate side frames and first/last slat) are kept uniform with other slat spacing

TECH SPECS

- PP 126 / AP 188
- Alloy 6063-T5
- 5800mm long
- Screwing fix centre support rail provides support to slats used in horizontal sliding gates
- For extra rigidity, centre support rail is braced to the top & bottom rail
- lxx = 1.73 x 10E3 mmE4
- lyy = 26.34 x 10E3 mmE4

GATE EXTRUSIONS

65x65mm steel post

2700MM LONG

Order Code: XPSG-2700-ST65-B

TECH SPECS

- 65x65mm galvanised steel post
- Includes press in black cap
- 2.5mm wall thickness
- Use at gate end to affix guide rollers or slide guide
- May also be used at gate front for affixing U or F catch

Sliding gate extension

400MM LONG

Order Code: AWSG-MXTN-KIT
XPSG-MXTN-KIT-MN

TECH SPECS

- 400mm long bottom rail extension
- Optional extra – useful where extra length required for motor rack to be affixed to bottom rail.
- Not required for every slide gate install. Recommended only where install situation requires
- Extension piece fixes to gate side frame
- Fixing bolts and plates included in kit
- Bottom rail is timber imaged with terrain powder coat end plate

For Island Grey

Simply bolt onto bottom of gate side frame during assembly process

400mm extension easily bolts to gate side frame

GATE ACCESSORIES

Steel sliding gate track

3000MM LONG OR
6000MM LONG

Order Codes:

XPSG-3000-TRACK-ST (3000mm)

XPSG-6000-TRACK-ST (6000mm)

- Available 3000mm or 6000mm long
- Made from 3mm galvanised steel for durability
- Bolt down sliding gate track with a $\varnothing 20$ mm running surface
- Easy to install with predrilled fixing holes (22 holes for 3000mm track and 42 holes for 6000mm track)

Aluminium sliding gate track

6000MM LONG

Order Code:

XPSG-6000-TRACK-AL (6000mm)

- Available 6000mm long
- Mill finish aluminium - 6063-T5
- Bolt down sliding gate track with a $\varnothing 20$ mm running surface
- No drill holes - drill fixing holes as needed

Sliding gate track pins

Order Code: **XPSG-ANCHOR**

- Mushroom head galvanised steel track anchor pins
- 6.5mm x 38mm
- Pre-expanded expansion anchor. Once hammered in, unique kinked shaft provides a spring action for vibration proof anchoring. Use 6.5mm masonry bit into concrete

Sliding gate wheel

Order Code: **XPSG-WHEEL**

- 80mm diameter with 20mm diameter groove
- Zinc plated steel
- Load rating 180kg
- Use with 1 x XPSG-WHEEL-CS clamping set to fix to sliding gate bottom rail
- Made in Italy

Sliding gate wheel clamping set

Order Code: **XPSG-WHEEL-CS**

- Use to clamp sliding gate wheel to bottom rail
- Aluminium M8 threaded block
- Includes 2 x zinc plated screws
- Sold as a pack of 2 (suits 1 x wheel)

Slide guide

Order Code: **XPSG-GUIDE**

- Self-adjusting slide guide attaches to sliding gate top rail
- Keeps gate in vertical position and travelling true while opening/closing
- As gate travels along track and shifts up or down, slide guide adjusts automatically. Up to 280mm vertical adjustment.
- Guide channel is anodised black with sturdy nylon block

Sliding gate guide rollers

2 PACK

Order Code: **XPSG-TOPROLL-2PK**

- Alternative to SlideGuide
- Rollers guide top rail while gate opens and closes
- Can only be used if vertical deviation of gate while travelling is 15mm or less
- White nylon rollers - made in Italy
- Kit includes 1 x left and 1 x right zinc plated steel mounting bracket (fixings not included) - 30mm hole centers

2 installation methods –

GATE ACCESSORIES

Gate U catch

Order Code: **XPSG-CATCH-U**

- Suits up to 50mm gate frames
- Gate catch supplied with 5 pre-drilled holes for easy installation and adjustment
- Rubber stop provided for noise reduction
- Steel zinc plated

Gate F catch

Order Code: **XPSG-CATCH-F**

- Suits up to 50mm gate frames
- Affix bracket to wall/post via "F" leg
- U catch attaches to F section – includes rubber stop for noise reduction
- U catch horizontally adjustable for ease of lining up to gate frame
- Steel zinc plated

Gate stop

Order Code: **XPSG-STOP**

- Stops the gate in the option position
- Forged steel zinc plated gate stop with nylon bumper
- Bolts to concrete at end of gate track. 4x Ø11mm fixing holes
- Made in Italy

**MATES WITH AWXP-5800-CSR
XP-5800-CSR**

MONUMENT
(MN)
For Island Grey

Centre support rail top/ bottom plate

Order Code: **AW-BTP-TR
XP-BTP-MN**

- Aluminium with countersunk hole machining
- Terrain finish suits WRC & Kwila. Monument suits Island Grey
- Use to brace off top and/or bottom of centre support rail to top and bottom rails
- Bracing centre support rail provides extra rigidity

Screw top/bottom
plate to centre
support rail

Screw through
central hole to top
& bottom rail

Gate frame cap

NYLON

Black / Monument

Order Code: **XP-GFC-B**

- UV stabilised nylon – 3mm thick cap
- Black screen heads suit WRC & Kwila. Monument suits Island Grey
- Suits gate side frame
- Press-in flat cap

BLACK
(B)

MONUMENT

For Island Grey

PACK OF 10 Gate frame screws

12Gx65MM HEX FLANGE HEAD

Order Code: **XP-SCREWSGF-10PK**

- Hex flange head for easy assembly
- Use to screw horizontal top & bottom rails to vertical side frames
- Also use to screw fix 'gate' slat to side frames for horizontal slat gates with 9mm or 20mm spacing (65x16.5mm slats)

Self drilling wafer screws

10Gx16MM – BAG OF 100

Black / Monument

Order Code: **XP-SCREWS-B/MN**

- 10G x 16mm self drilling wafer head zinc plated
- Powder coated heads for neat finish
- Use to: (1) Screw fix centre support rail to slats
(2) Screw fix & brace off centre support rail top/bottom plate to top/bottom rail
(3) Screw fix slats to side frames if required
(4) Attach Alumawood side frame to outer gate frame for gate options 2 & 3
(see pages 133-134)

Sliding gate motors

LONG TERM RELIABILITY

NiceHome automation and accessories are tested every day in the Nice laboratories according to strict criteria. To ensure compliance with the strictest safety requirements on the market, NiceHome guarantees the highest possible technological and quality standards.

PROFESSIONAL QUALITY

Designed and manufactured in Italy, NiceHome automation benefits from unique Italian know-how combining top performance with an essential style to adapt perfectly to the needs of your home.

To complement horizontal slat and vertical slat sliding gates, we can supply the highest quality Italian made gate automation and accessories. NiceHome automation is a new upgrade to the well-known Mhouse range.

Filo 400 Pro Kit

Order Code: XPSG-FILO-400

KIT INCLUDES:

- 1x Motor
- 2x Remotes
- 1x Pair of Photocells (safety device which prevents the gate from closing on pedestrians or vehicles)

- Sliding gate opener suits gates up to 6000mm wide and weighing up to 400kg
- Easy to install and simple programming steps
- Flexible short power cord pre-wired to motor
- Plugs into standard power point with 10 amp flat 3 pin plug
- Includes pinion (cog) that integrates with rack on gate

Low voltage cable option

External transformer

FILO 400 Pro Kit with split pack

Features external transformer

Order Code: XPSG-FILO-400PRO-SP

- Same motor and accessories as FILO 400 except transformer is separated from motor
- External transformer converts 240V mains power to low voltage 24V
- Use 2 core x 2.5mm (double insulated) electrical cable to run from transformer to motor. CABLE SOLD SEPARATELY - can be purchased from electrical wholesaler or reputable hardware store
- Motor can installed a maximum of 50 meters away from transformer
- 10 amp flat 3 pin plug
- Ideal where getting 240V mains power to gate motor is different. Simply run low voltage cable from transformer to gate motor.
- Refer www.easygate.com.au for technical assistance/manuals

KIT INCLUDES:

- 1x Motor
- 2x Remotes
- 1x Pair of Photocells (safety device which prevents the gate from closing on pedestrians or vehicles)
- 1x External transformer in weatherproof enclosure

MOTOR ACCESSORIES

Remote control

Order Code: XPSG-FILO-REMOTE

- Optional extra remote control to replace remotes in kit if broken or more remotes required (2x remotes included as standard with each motor kit)
- 5 channel remote able to control various gate functions (eg open only, close only, partial open etc)

Wireless keypad

Order Code: XPSG-FILO-WKP

- Optional wireless keypad for gate motor opening/closing
- PIN number control access
- Easy to affix to wall or post
- Runs on 2 x CR2430 lithium batteries

Solar power kit

Order Code: XPSG-FILO-SOLAR

- Solar power system designed for use with NiceHome motors
- System uses exclusively solar power to run automation without use of electrical mains power
- Provides continuous electrical energy. Ideal for sites where mains power is unavailable
- Includes photovoltaic panel (converts solar energy into electrical energy) and electric battery (for stored power, able to operate gate night and day)
- Attention must be paid to ensure panel positioned to receive full sunshine

Backup battery

Order Code: XPSG-FILO-BATTERY

- Optional battery provides backup power in the event of mains power failure
- Gate can be cycled multiple times under battery power (no. of cycles may vary due to gate size and site conditions)
- Backup battery is recharged under mains power

Rack

Order Code: XPSG-FILO-RACK

- Tough & durable nylon rack (with steel core)
- Affix to bottom rail of sliding gate
- 1 meter long sections; 6 fixing points
- Quieter than steel racks
- Made in Italy

TECHNICAL ASSISTANCE/MANUALS AND SUPPORT VIDEOS
